Since the trial of the rate case be-
 fore Judge Hart the number of con-
 sumers has trebled with the result
 that although there has been a re-
 duction of 25 per cent in the water
 rate the income from Oakland has
 more than doubled while the cap-

ly being now more than double the Hart valuation which the Supreme Court has since declared to be exorbitant and illegal.

If the information at hand is reliable it is proposed to transfer the plant of the Peoples Water Company to the Hanford Tesis syndicate at a price above \$20 000 000. William J. Dingee sold the plant including the Phenol and Wildcat creek lands to the organizers of the Peoples Water Company for \$11 300 000. The Peoples Water Company has an authorized capitalization of \$40 000 000 divided as follows \$20 000 000 bonds \$8 000 000 preferred stock and \$12 000 000 common stock. All the preferred and common stock has been issued and the bonds are being

issued and the bonds were sold for new approximately \$14,000,000. By the selling process the common stock, which was issued mainly as a bonus to the purchasers of preferred stock and bonds has been boosted to \$10 a share. This advance was caused probably by the impending sale of the common stock was considered practically worthless up to a few days ago.

ON HARBOR FRONT

Board of Works Expects Have the Work Going Within 90 Days

It is the hope of the Board of Public Works and the engineering department of the city to have the work on the waterway project in full swing within ninety days. The board is to meet on Tuesday, April 1, to discuss the project.

PORT COSTA Nov 29 -

BEAT HER WITH GUN

Bleeding profusely and unconscious from a possible fracture of the skull inflicted by the butt of Duvals pistol as he struck her again and again while she lay helpless at his feet the girl was picked up by several horrified witnesses of the tragedy. A W. Jones an outcast attracted by the woman's screams and the rapidly discharged shots rushed in the restaurant just as the murderer with the smoking gun still in his hand reached the door.

KILLED HIMSELF

Mutual acquaintances of the man and girl assert that they have been on an intimate footing for several months past. Recently Leona, who is a pretty brunette, went to work at the hotel and with an acquisition of pretty clothes for which she is said to have spent the better part of her weekly salary, she attracted considerable attention among the travelers who frequent the town.

Duval is said to have been intensely jealous of the woman and on more than one occasion, according to rumor, accosted her as she walked down the street with other men upbraiding fiercely for her unfaithfulness.

T is the time you will come

BOOKIE HELD TO ANSWER BETTING CHARGE

Brown is Held But Martin
is Released by Consent
of Prosecution

Bookmaker Charles Brown, arrested
in conjunction with another bookmaker,
Ed I. Martin, on a charge of violating
the anti-gambling laws on November 27
by a \$100 bet of \$2 on a horse called

RAILROAD
FROM CORINTH TO GRANADA . . .
WHICH MIGHT BE SEIZED FOR THE
TRANSPORTATION OF U.S. TROOPS . . .

Brown is Held But Martin is Released by Consent of Prosecution

The case against Martin on motion of District Attorney Wm Donahue was dismissed on the ground of insufficiency of the evidence. Judge Carroll Cook who is making a test case for the California Jockey Club was not present in court when the decision was rendered but was represented by Attorney Eugene F. Trefethen. The District Attorney's office was represented by District At-

Judge Samuels then asked Attorney Trefethen representing Brown if he had anything to say.

In the case of defendant Charles Brown it appearing to the court that the offense charged in the complaint that of violating section 337A of Penal code has been committed it is here ordered that he be committed to the custody of the sheriff of Alameda county for a period of 90 days or the sum of \$1000.

TO LEAVE FOR EAST**
Congressman and Mrs. Joseph
Knowland will leave for Washington
Thursday morning. They will go on
overland. ~~Wanted~~

As a part of its general scheme to extend its suburban service in connection with the proposed extension of the local line Stanley Road is the boundary line between Greater Oakland and San Leandro and when the formal annexation is de-

While it was not officially announced to be the fact, indications are that the railway company will be notified that it will be necessary for it to carry its crossing Fourteenth street near the Melrose station.

From the Stanley Road the line will continue through San Leandro to Hayward and thus give those places an intermediate point a direct connection.

SAN FRANCISCO Nov. 29 — Judge Robert S. Lovett, head of the Harriman system of railroads, arrived this morning in this city from the northwest where he has been on a tour of inspection of the lines of the system. Accompanying him were several high-ranking officials of the system, including Mr. J. Edgar Hoover, director of the Federal Bureau of Investigation, and Mr. J. P. Morgan, president of the American National Bank. The judge is expected to remain in the city for several days, during which he will hold numerous conferences with the local officials and the railroad officials. He is also expected to continue his discussions during the afternoon.

The coming of Judge Lovett at this time is not believed to be a matter of any particular significance beyond the fact that he desires to inspect the hold-ings of the system and its workings in this section.

Immediately after registering at the NEW YORK, No. 29—The Immigration in the prairie provinces Canada has resulted in a decision the Austrian government to establish a new consulate in Winnipeg for the provinces of Manitoba, Saskatchewan, Alberta and British Columbia.

Nicaragua's Press Is Aroused by Executions; Anarchy May Be Result

The Nicaraguan Congress will assemble Wednesday, December 1, and it is rumored that President Zelaya will retire and possibly attempt to escape from the country at night by the Pacific Coast. Anarchy, it is said, may ensue.

Persistent rumors from various quarters indicate that Irias may succeed Zelaya as President of Nicaragua.

This information, it was announced today, is embodied in telegrams delayed in transmission and received at the State Department from the consular representatives of the United States in Nicaragua.

The first telegram dated Manag states that Leroy Cannon was executed October 21st and Leon Grace on November 3. They were executed November 12 and no more reached the department of the execution until the 17th.

PROMISES NO HARM.
Members of the Red Cross arriving from Casillo say Cannon Groce were captured while they were lost on the banks of the San Juan river and that the captain of a boat called them, promising not to harm them.

These allegations were in part confirmed by the Nicaraguan press, which stated the execution was for an attempt to blow up steamers. The execution caused general indignation, which was shared by the commander-in-

Nicaraguan lawyers declare the execution was unlawful. The Nicaraguan captain is in prison for having refused to carry out Zeleva's sentence that the Americans be shot.

Another telegram from the capital at Managua states that on November 24 placards appeared on the wall of Managua favoring the revolution and denouncing President Zeleza.

PREPARED TO ESCAPE.

One of the other consuls had information that President Zeleza prepared to escape Anarchy, states may ensue. The consul a permission to occupy the legation premises as being more secure against possible vandalism and

A later telegram from the co at Bluefields says Cannon and G respectively, were Lieutenant Co and Colonel of Engineers in the olutionary army and both were ularly enlisted under the comman

SUPERVISORS IN SESSION TODAY

Board Gathers and Disposes
of Numerous Minor
Matters

Chairman Horner presided over the meeting of the Board of Supervisors this morning and Supervisors Bridge, Kelley and Mullins were present.

The following applications for permission to renew liquor licenses were granted: Giovanni Pierotti, Elmhurst; Thomas J. Klink, Warm Springs, and M. Poncet, Mission San Jose.

Eleven property owners petitioned the board to open the county road joining the Tesla with the Cresta Blanca road and the matter was referred to the committee of the whole and the county surveyor.

The resignation of M. J. Riley as watchman in the county treasury, to take effect on December 6th, was accepted. L. A. Morris was appointed to succeed him.

Having completed work to the amount of \$2000 on his contract for an arch bridge on Persia creek, at Prescott and Golden avenues, on recommendation of the County Surveyor, J. A. Scott was allowed \$400 on the contract.

The Hyde Harjas Company was allowed \$1200 on its contract for the bridge across Alameda creek.

On authority of W. J. Miller, the architect, the board ordered \$12.95 paid to the Pacific Construction Company for materials delivered and work performed for the new county jail.

SAN FRANCISCO GRAFT CASES ARE PUT OVER

SAN FRANCISCO, Nov. 28.—The cases against Louis Glass, of the Pacific Telephone Company, Eugene De Salia, John Martin, and Frank G. Drum of the Gas company, were continued in Department 11 of the Superior court this morning until January 1st.

Assistant District Attorney John O'Gara moved for the continuance of the cases, which will put the responsibility of these prosecutions to the new district attorney who takes office early next year.

The cases against T. J. Ford, and the other officials of the United Railroads, as well as those against Abraham Ruef, were laid over, however, only until next Monday, when Judge Lawlor will have returned from his vacation. It is when some further action will be taken.

Group is most prevalent during the dry cold weather of the early winter months. Parents of young children should be prepared for it. All that is needed is a bottle of Chamberlain's Cough Remedy. Many mothers are never without it in their homes and it has never disappointed them. Sold by Osgood's Drug Stores.

FEDERAL GRAND JURY IS DRAWN

John W. Flynn is Appointed
Foreman of Inquisitorial
Body

SAN FRANCISCO, Nov. 28.—The twenty-three citizens who are to compose the Federal Grand Jury in the United States District Court were drawn this morning and examined by United States District Attorney Devlin. Judge De Haven appointed John W. Flynn as foreman, and he and the other twenty-two members were instructed as to their duties and taken in charge by the United States marshal. The grand jury, which will hold sessions until next March, consists of the following named persons:

HARRY BIRD, 38 Woodland avenue, M. B. JOOST, 545 Valencia street, LEWIS E. HOBART, 1112 Crocker building, JULIAN LIEBES, 1442 Van Ness avenue.

W. IRVING, 340 Sansome street, J. J. FAGAN, Crocker Bank, ANDREW C. GRIFFIN, 16 California street, HOWARD W. GREGG, 288 Market street, GEORGE W. HART, 109 Davis street, J. G. NIGGLE, Pacific building, A. H. ANDERSON, 20 Fifth street, EDWARD F. PURDY, 340 Sansome street, ABBOTT A. HANKS, 425 Washington street, JOHN BRUCKMAN, 2926 Pacific avenue, JOHN FRACKMAN, Pacific building, JOHN W. FLYNN, foreman, 2494 Post street, S. M. GRIFFIN, Mills building, LINCOLN D. McDONALD, 407 Berry street, J. HOOPER, 110 Market street, A. C. PERKINS, Dewey House, Fourth and Howard streets, W. N. DOLPH, 1 Drum street, M. BARLOW, 628 Montgomery street, C. L. BONESTELL, 118 First street.

OLDEST MASTER. CHICAGO, Nov. 29.—Fifty years a pedagogue, that is the record of Orville T. Bright, superintendent of District No. 8 of the Chicago public school system. The activities of any one man in one profession seldom span such a gap between the past and the future, but Bright is in the service.

Half a century ago, almost to a day, Orville T. Bright took charge of a little country school at Spring Prairie, Wisconsin. Since that time he has filled important positions in the educational world. He has been connected with the schools of Chicago for forty years. Mr. Bright was born in Richland, Oswego county, New York on April 22, 1840.

SECRETARY BALLINGER ISSUES ANNUAL REPORT

He Declares That Millions of Acres of Public Lands Have Been Acquired by Fraud

WASHINGTON, Nov. 29.—The annual report of the Secretary of the Interior, Richard A. Ballinger, for the fiscal year ending June 30, 1932, has just been issued. It covers part of the time under Garfield's administration. It shows that out of 18,916 officers, clerks, and employees of the department, 4220 are stationed in Washington and the remainder are in the field service.

THE PUBLIC LANDS.

Discussing the subject of public lands the report says: "The railway grants generally were limited to nonmineral lands, except such as contained coal and iron, which latter minerals were taken to be essential for railroad construction. The public lands were, when admitted, liberally endowed with public lands for school and other purposes; so that, out of a public domain in 1860 of 1,055,912,288 acres (Alaska then not belonging to the United States), we now have only about 731,354,481 acres, confined largely to the mountain ranges and the arid and semi-arid plains, except lands within some of the Indian reservations and the 868,035,976 acres of undisposed of land in Alaska."

LAND FRAUDS.

Speaking of the unlawful acquisition of the public lands, the report continues: "The liberal and rapid disposition of the public lands under these statutes and the lax methods of administration which for a long time prevailed naturally provoked the feeling that the public domain was legitimate prey for the unscrupulous and that it was no crime to violate or circumvent the land laws. It is to be regretted that we, as a nation, were so tardy to realize the importance of preventing so large a measure of our natural resources passing into the hands of land pirates and speculators, with no view to improvement or looking to the national welfare. It may be safely said that millions of acres of timber and other lands have been unlawfully obtained, and it is also true that actions to recover such lands have in most instances long since been barred by the statute of limitations. The principal awakening to our wasteful course came under our predecessors' administration."

COAL LAND FRAUDS.

On the question of coal land frauds, the report says: "The inducements for much of the crime and fraud, both constructive and actual, committed under the present system, can be prevented by separating the right to mine from the title to the land. The surface would thereby be open to entry under other laws according to its character and subject to the right to extract the coal. The object to be attained in any such legislation is to conserve the coal deposits as a public utility and to prevent monopoly or extortion in their disposition."

"This may be accomplished either through a leasing system, by which the title would remain in the government, under proper regulation and supervision by the Secretary of the Interior, or through the sale of the deposits, and in either case with restrictions on their mining and use which would control the minimum output and conserve the deposits. I believe the latter is the most advantageous method will be found in a measure authorizing the lease or sale of the coal deposits in the lands, subject to forfeiture for failure to exercise the rights granted, and subject to reasonable regulations as may be imposed. An exploration period of at least one year upon a permit basis, at a nominal charge, would insure to the applicant the necessary preliminary knowledge upon which to make the best use of the coal deposits and venture the necessary investment for operation."

COAL LAND CLASSIFICATION.

"The following table shows the approximate areas now withdrawn for classification and those classified and restored to the status of coal land classification on November 1, 1932:

State.	Withdrawn from all entry pending classification—Acres.	Classified and restored—Acres.
Alabama	2,472,000	6,050,000
Arizona	2,200,000	6,230,000
California	1,628,000	207,500
Idaho	1,850,000	880,100
Montana	9,200,000	1,062,850
Nebraska	3,280,000	304,000
North Dakota	1,000,000	6,810,000
South Dakota	945,100	2,180,917
Wyoming	1,612,171	11,802,570
Total	31,672,171	50,410,223

TEMPORARY WITHDRAWALS.

"Congress has, by the act of February 19, 1909, substantially adopted the recommendations made by me as Commissioner of the General Land Office, in the enactment of a statute, known as the 'dry-landing' or 'homestead' act, authorizing the classification and entry of semiarid lands. The department has through the Geological Survey, under this act classified 172,097,043 acres."

I have also recently withdrawn temporarily for the purpose of submitting the subject to Congress for new legislation, large areas of oil lands in Wyoming, California, Utah and Oregon, the area thereof in the several states being as follows:

Wyoming	345,561
California	2,183,922
Utah	1,017,606
Oregon	74,849

Total on November 1, 1932, 3,621,938

"Under the present administration, there were temporarily withdrawn, pending action by Congress, 4,702,320 acres of land, in the States of Wyoming, Idaho and Utah, as containing phosphate deposits. These lands are being relinquished by the Geological Survey to my direction with a view to eliminating all tracts not containing such deposits. The area of the original withdrawals has now been reduced to 4,471,480 acres by the elimination of nonphosphate lands, and I am advised by the Geological Survey that additional areas will be eliminated as a result of their examination. The lands containing phosphate are not adaptable to disposition, and should not be allowed to be disposed of as other placer or lode mineral claims, but the deposits should be leased or sold in limited areas and on conditions preventing monopoly, and insuring domestic use."

POWER SITES.

"In anticipation of new legislation by Congress to prevent the acquisition of power sites on public domain by private persons or corporations with the view of monopolizing or adversely controlling them, the public interest, there have been temporarily withdrawn from all forms of entry approximately 608,355 acres, covering all localities known to possess power possibilities on unappropriated lands outside of national forests. Without such withdrawal, private parties would be entitled under existing laws, and their patenting would have the General Government powerless to impose any limitations as to their use."

"If the Federal Government desires to exercise control or supervision over water-power development on the public

domain, it can only do so by limitations imposed upon the disposal of power and reservoir sites upon the public lands, the waters of the streams being subject to state jurisdiction in their appropriation and beneficial use. I would therefore advise that Congress be asked to enact a measure that will authorize the classification of all lands capable of being used for water power development, and to direct their disposal, through this department."

OIL LANDS RESERVED.

"The reasons for withdrawing oil-bearing lands from pre-emption is this given: 'I desire to call attention to the importance of asking Congress to authorize the executive to reserve certain areas of these lands for the purpose of affording a supply of fuel oil for the future use of the navy, and to make such regulations as may be necessary for the preservation and extraction of such deposits. No legislation exists for the entry of oil and gas lands, other than the general mining laws of the United States, which are not adaptable to the disposition of lands containing mineral oils and gas.'

NATIONAL PARKS.

"The national parks and reservations under the jurisdiction of the department are as follows: Yellowstone, in Wyoming, 2,142,720.00; Yosemite, in California, 1,192,222.00; Sequoia, in California, 161,597.00; General Grant, in California, 2,385.00; Mount Rainier, in Washington, 207,350.00; Hale, in Oregon, 159,360.00; Wind Cave, South Dakota, 10,522.00; Sully Hill, in North Dakota, 780.00; Platt, in Oklahoma, 845.22; Casa Verde, in New Mexico, 480.00; Mesa Verde, in Colorado, 42,376.00; Glave-mille strip for protection of ruins, 175,390.00; Hot Springs Reservation, in Arkansas, 911.62. Regarding the maintenance and improvement of these national parks, the report makes elaborate recommendations."

DR. HENRY C. CROWDER SUCCUMBS TO ILLNESS

STOCKTON, Nov. 29.—Dr. Henry C. Crowder, Southern Pacific physician and general manager of the stock yards here, died after an illness of several weeks. He is survived by a wife and a son, J. F. Crowder, of Sacramento. He was a member of the Knights Templar. The remains will be shipped to Santa Rosa for interment.

LABOR LEADERS WILL ARBITRATE DISPUTE

ST. PAUL, Nov. 29.—Martin A. Knapp, chairman of the Interstate Commerce Commission, and Chas. F. Neil, U. S. Labor Commissioner, reached here today to hear arguments in the dispute between the switchmen's union and the managers' committee representing the railroad companies, relative to a demand by the switchmen for an increase of about twenty per cent in pay.

AUBURN, Cal., Nov. 29.—The trial of Jefferson Lewis, charged with the murder of Benjamin Swozy, began today before Judge Frewalt. Two jurors were passed subject to peremptory challenge.

LABOR TRADERS UNDER THE BAN

Supreme Court Decides That Importers of Laborers May Be Punished

WASHINGTON, Nov. 29.—That the courts through criminal proceedings should punish persons who conspire to aid alien contract laborers to come into the United States, contrary to the Immigration laws, was held by the Supreme Court of the United States today in the prosecution of Tilden B. Stevenson and Amede Bellini.

These men were indicted in the United States District Court on the charge of aiding in the immigration of aliens who were under contract to labor in this country. At the trial of the men the court found that while the law made a misdemeanor of the offense, it did not provide for any punishment of it except by recovery for damages through a civil suit. Holding that a civil action would be exclusive of any other proceedings, the court dismissed the case.

The Government appealed to the Supreme Court, with the result that it succeeded in obtaining a reversal of the decision of the lower courts.

Would-Be Boy Bank Robber Confesses

ST. LOUIS, Nov. 29.—Tom Gallagher, 13 years of age was captured after the police had surrounded the Lafayette Bank early today, confessed that he with another boy had planned to rob the bank.

The other boy, who was acting as lookout, fled. Gallagher, who had ascended to the third floor of the building in an effort to get into the bank's quarters, was captured as he descended the fire escape.

"The other boy put me up to it," he said.

Moorish Chiefs Make Formal Surrender

MELILLA, Morocco, Nov. 29.—The chief of the important Moroccan tribes of Kabyle and Beni today made formal submission to General Marina with much ceremony. The chiefs even offered to Spanish troops and to the Spanish troops against such Moors as were still hostile.

CHIAPI IS HELD FOR FEDERAL GRAND JURY

SAN FRANCISCO, Nov. 29.—Antone Chiapi, who was arrested recently by postal inspectors on a charge of conducting fake employment agencies in various cities in this State, was examined today by United States Commissioner Heacock and held for further examination by the Federal grand jury.

Germans Discuss Aeronautical Maps

BERLIN, Nov. 29.—At a meeting of the Imperial Aero Club of Berlin, presided over by Count Zeppelin and attended by a number of officers of the general staff of the army and navy today, the preparation of aeronautical maps was discussed.

It was agreed that such charts as should show the marked variations of the landscape as well as the location of electric wires and other aerial obstructions would be useful.

A committee including Count Zeppelin was appointed to gather information on the subject from aeronautical experts.

TELEGRAPH WIRES ARE BROKEN BY THE STORM

TOPEKA, Nov. 29.—From a thousand to fifteen hundred telegraph poles and several miles of telegraph wires are down on the Western Kansas divisions of the Chicago, Rock Island and Pacific and Atchison, Topeka and Santa Fe railroads as the result of a storm which began Saturday, lasted over Sunday and is now subsiding. Rain, sleet and snow fell. All trains from the west are delayed.

Murderer of Three Is Still at Large

FRONTENAC, Kans., Nov. 29.—It is felt here that the slayer of William Bork, his wife and 3-year-old son, who were murdered on a lonely road five miles north of here last Friday night, will never be apprehended. Not the slightest clue to establish the identity of the murderer has been discovered. Should the guilty man be arrested, it is probable that summary punishment will be meted out to him by the miners in his district.

EL PASO TRAINS HELD UP BY SNOW STORMS

EL PASO, Texas, Nov. 29.—Trains on the Chicago, Rock Island and Pacific railroad bound for El Paso are reported snow bound in Oklahoma. Heavy snow also has fallen at Dawson and Duran, N. M., and the temperature has dropped perceptibly at El Paso with promise of snow.

TO CURE A COLD IN ONE DAY. Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. W. GROVE'S signature is on each box. 25c. Attention: Sales—extensive reduction in price. S. J. Condit, 408 13th St.

ANNOUNCEMENTS

GREATEST PICTURE EVER SHOWN

At the Bell Theater This Week One Can Get a Splendid Idea of the Gigantic Work Now Being Pursued at Panama.

Work on the Canal Interesting on the Beliscope.

A Bucyrus steam shovel at work in Culebra cut looking toward La Boca.

The scene opens with a view of the quaint city of Panama, and from there one is transported to the scene of developments and industry along the canal route.

The workmen consist of things done on a gigantic scale, viz: Blasting of solid rocks from great depths; the huge steam shovels; loading of cars; the earth to be taken away; the wonderful cable patented for unloading from forty to fifty carloads of earth at once.

The imagination of man cannot conceive of the vastness of the amount of work being done by the most skilled men of the country. The picture brings their wonders before your eyes at your very door.

No one interested in the development of his country should fail to see this stupendous picture. Over a thousand feet in length and every one of intense interest, this picture is attracting hundreds.

Sensational Slaughter Sale

\$15,000 STOCK

Ladies' Up-to-date and Durable Suits, Jackets, Skirts, Waists and Furs

Will be thrown at your mercy, commencing WEDNESDAY MORNING, 9 A. M. DECEMBER 1ST.

GERMAN SOCIETIES OPEN RECONSTRUCTED ALTENHEIM

Magnificent New Retreat Takes Place of Home Destroyed by Fire Seventeen Months Ago at Dimond

An immense crowd which thronged the entire floor of the new home, gathered for the dedication and opening of the new German hospital at Dimond, which has been a long time in the making. The old Altenheim was destroyed by fire in 1909 and the new building, which is a magnificent structure, has been erected on the same site. The new building is a two-story structure, with a large central hall, and is surrounded by a beautiful garden. The new building is a masterpiece of architecture, and is a credit to the German community in Oakland.

ASK PRESIDENT TO AID LABOR

Leaders Petition Taft to Incorporate Measures in Message

WASHINGTON, Nov. 22.—Recommendations looking toward the improvement of the laboring man which it is desired the President incorporate in his annual message to Congress, were urged upon President Taft by labor leaders, headed by Samuel Gompers president of the American Federation of Labor. John Mitchell, second vice-president, James O. Connell, third vice-president, and Frank Morrison, secretary of the federation, accompanied Mr. Gompers to the White House.

President Gompers submitted a number of matters. Foremost was one concerning the issuance of injunctions by Federal judges particularly as they apply to personal liberty and their use in the settlement of disputes between employers and employees. The exemption of labor organizations from certain provisions of the Sherman anti-trust act was discussed. The President has practically decided that his message to Congress will make no detailed recommendations regarding the Sherman act.

Wife Desertion or Failure To Provide Is a Felony

The following amendments to the sections of the Penal Code providing for the punishment of wife desertion or failure to provide for wife or minor children were passed by the last legislature:

Section 270—California Penal Code. A parent who willfully omits, without lawful excuse, to furnish necessary food, clothing, shelter or medical attendance for his child is punishable by imprisonment in the state prison, or in the county jail, not exceeding two years, or by fine not exceeding one thousand dollars, or by both.

Section 270a—California Penal Code. Every husband having sufficient ability to provide for his wife's support, or who is able to earn the means of such wife's support, who willfully abandons and leaves his wife in a destitute condition, or who refuses or neglects to provide such wife with necessary food, clothing, shelter or medical attendance, unless by her misconduct he was justified in abandoning her, is punishable by imprisonment in the state prison or in the county jail not exceeding two years, or by fine not exceeding one thousand dollars, or by both.

Section 270b—California Penal Code. After arrest (and before plea, or trial, or after), conviction or plea of guilty (and before sentence) under either section 270 or 270a of this code, if the defendant shall appear before the court and enter into an undertaking with sufficient sureties to the people of the State of California in such penal sum as the court may fix, to be approved by the court, and conditioned that the defendant will pay to the person having custody of such child, or to such wife, such sum per month as may be fixed by the court in order to thereby provide said minor child or said wife, as case may be, with necessary food, clothing, shelter, or medical attendance, then the court may suspend proceedings or sentence thereon, and said undertaking is valid and binding for six months; and upon the failure of defendant to comply with said undertaking, he may be ordered to appear before the court and show cause why further proceedings should not be had in such action or why sentence should not be imposed, whereupon the court may proceed with said action, or pass sentence, or for good cause shown may modify the order and take a new undertaking and further suspend proceedings or sentence for a like period.

PROPOSED NEWSPAPER SCALE OF THE SACRAMENTO PUBLISHERS

Letter Accompanying the Publishers' Proposed Scale for Newspaper Composing Rooms in Sacramento

This proposed scale and contract accompanies the letter addressed by the Sacramento publishers under date of May 29th to the Special Scale Committee of Sacramento Typographical Union No. 26, and was offered in lieu of the scale proposed by the Union.

The publishers explain in a subsequent letter that every provision of their proposed scale which may seem in any way doubtful has been taken (usually verbatim) from the existing scale of one or more local unions and has had the endorsement of the International Typographical Union. They also suggest that a statement by the Union of the facts and figures upon which it may rest claims for features of its scale in conflict with similar features of the publishers' scale may enable the publishers to adjust their errors if any have been made.

This agreement, made this day of June, 1930, by and between the Sacramento Publishing Company, publisher of the Sacramento Union; James McClatchy & Co., publisher of the Sacramento Bee, and the Sacramento Star Company, publisher of the Sacramento Star, parties of the first part, hereinafter designated as "Publishers," and Sacramento Typographical Union No. 46, party of the second part, hereinafter designated as "Union," all parties hereto being of Sacramento, Cal.

WITNESSETH, (a) It is mutually agreed between the parties hereto that for six years from the date hereof (and thereafter until one month's written notice shall be given by either party hereto) the hours and conditions of employment in the composing rooms of "Publishers" shall be in accordance with the scale of prices hereinafter made and made a part hereof.

(b) It is agreed that the term "Publishers" shall employ in their composing rooms only members of "Union" for machine operation, hand composition and distribution, and make up, and as proofreaders and foremen and assistants. The following work, not necessarily as apprentices work and may be done by one selected by the office: Passing proofs, clearing out forms from which ads and other live matter has been removed, sorting and distributing leads, galleys and borders; casting dashes, rulers, slugs and type on typesetting machines, cleaning and oiling machines, taking out block-ups and doing such general work around machines as shall not require a skilled machinist's tender, including: holding copy and doing any general work in and around the proofroom.

(c) It is agreed that during the life of this contract "Union" shall not consent to other parties to enter into any contract, operating under conditions different from those herein provided, unless any privileges so accorded shall be granted also to "Publishers," parties to this contract.

(d) A standing committee of six, to consist of three representatives selected by "Publishers," and three representatives selected by "Union," shall pass upon any questions that may arise between the parties hereto during the life of this contract, and shall diligently and conscientiously work for the maintenance of harmonious relations and to prevent disagreement and controversy. In the event that such standing committee cannot agree upon a decision upon any question submitted to it, recourse shall then be had to arbitration under the procedure provided in the National Arbitration Agreement now in force between the American Newspaper Publishers' Association, of which "Publishers" are members, and the International Typographical Union, which exercises jurisdiction over "Union."

SCALE-MORNING AND EVENING NEWSPAPERS.

1. Eight hours shall constitute a day's work, exclusive of the lunch, which shall not exceed one-half hour, and which shall not be at the expense of the office. It shall be allowable, however, for morning newspaper offices to work ten hours on Saturday night, if they cumulate the extra two hours by shortening the time on other days in the same week. 2. Overtime shall not commence until after nine hours' work, and shall be paid for at the rate of time and a half. 3. Regardless of the uses for which the product is intended, all day work shall be paid for at the day wage, and all night work at the night wage. Split shifts shall be paid at the rate of time and a half. The day hours shall be 8 a. m. to 6 p. m., and the night hours, 6 p. m. to 6 a. m. Provided, however, that work on Sun-

To Messrs W. J. Shroader, P. S. Sanders, J. J. Devine, C. E. Sutphen, Wm. Nagle, Special Committee on Scale, Sacramento Typographical Union, No. 46.

Gentlemen: The Publishers of the three Sacramento daily newspapers, The Union, The Star and The Bee, have given such consideration as to the proposed scale of our composing rooms, as endorsed by our Union and submitted to us on May 1st. One of our publishers has only recently returned from an Eastern trip, another has been absent from the city for a week preceding the conference had with your committee Wednesday evening last, so that up to that meeting, there had been no opportunity for a comparison of views among ourselves.

Understanding that your committee is desirous of making some suggestions to the Union on Sunday next, we have taken the liberty to make a few changes in our proposed scale, and shall be glad to take up further consideration of the matter as the convenience of your committee and our own may require. We have also taken the liberty to make a few changes in our proposed scale, and shall be glad to take up further consideration of the matter as the convenience of your committee and our own may require.

We notice that the proposed scale submitted to us is intended to cover all branches of the printing trade operating in Sacramento. Its provisions include, therefore, many sections and parts of sections in no way applicable to the newspaper business as conducted by us. It has been in the past the agreed policy between your Union and ourselves that contracts and scales mutually adopted by us should cover only newspaper business, and nothing which does not pertain to the relations between us. We assume that such policy will obtain in the present negotiations and their various sections amenable to this principle may be eliminated. We have, therefore, under separate heads the various topics which appear in, or have been omitted from the proposed scale.

THE PUBLISHERS' PROPOSED SCALE

The Sacramento Newspaper Publishers are preparing and will have ready for your consideration next week, a scale in line with their views and carrying out their proposition which was indicated by them in general terms in their conference with your committee, and the most important items of which have been discussed in this letter. This is in accordance with the procedure laid down by the arbitration agreement in force between your International and the American Newspaper Publishers' Association.

The proposition could not be put in formal shape for the conference because, as indicated above, no meeting of the Publishers had been possible up to the night of the conference. The Publishers, in the meantime, have been working on the proposition, and have now ready for your consideration a scale which we believe will be found to be in line with the procedure laid down by the arbitration agreement in force between your International and the American Newspaper Publishers' Association.

It is understood between us that our views should be put in written shape and presented, if possible, so that the Union might discuss them at its meeting tomorrow, and as our proposition is necessarily a part of a formal proposition, we have, in the absence of the latter, and to save time as far as possible, indicated in this letter some of the more important points of such a scale.

The Publishers, in the meantime, have been working on the proposition, and have now ready for your consideration a scale which we believe will be found to be in line with the procedure laid down by the arbitration agreement in force between your International and the American Newspaper Publishers' Association.

With full confidence that the present occasion offers no exception to the record of the past in this regard, and with the assurance that your committee will further confer with the Publishers, we have, whenever deemed desirable, we present herewith some of the views which serve as basis for the scale we shall submit for consideration of your Union.

We notice that the proposed scale submitted to us is intended to cover all branches of the printing trade operating in Sacramento. Its provisions include, therefore, many sections and parts of sections in no way applicable to the newspaper business as conducted by us. It has been in the past the agreed policy between your Union and ourselves that contracts and scales mutually adopted by us should cover only newspaper business, and nothing which does not pertain to the relations between us. We assume that such policy will obtain in the present negotiations and their various sections amenable to this principle may be eliminated or amended.

We take up under separate heads the various topics which appear in, or have been omitted from the proposed scale.

HOURS.

The scale submitted proposes to cut the hours down from eight to seven and a half.

CASE AFTER CASE

Plenty More Like This in Oakland. Scores of Oakland people can tell you about Doan's Kidney Pills. Many a happy citizen makes a public statement of his experience. Here is a case of it. What better proof of merit can be had than such endorsement?

E. Considine, 831 Brush street, Oakland, Cal., says: "For years I suffered severely from kidney complaint, the first sign of the trouble being pain and weakness in the small of my back. The kidney secretions were so frequent in passages that I was obliged to get up at night and they deposited a heavy sediment if allowed to stand. My eyesight became affected and spots often appeared before my eyes when I first arose in the morning. My back ached so severely that I could not get to sleep, and I was unable to do my work. As a result of the steady drain on my system, my general health became affected. A friend, knowing of my serious condition, advised me to try Doan's Kidney Pills, and I procured a box. I noticed their good effects from the first and it was not long before I was completely cured. I have not had a recurrence of the trouble since, and it therefore gives me pleasure to recommend Doan's Kidney Pills to other kidney sufferers."

WIRELESS TELEPHONE SUCCESSFULLY TESTED

PHILADELPHIA, Nov. 22.—The first test of the Collins wireless telephone in this city today was successful. Two of the Delaware River piers, 100 yards apart, with the river as a conductor, were connected by a wireless system. The test was a complete success. The system is said to be equally effective when used with earth, concrete or air as a conductor. It is proposed to use the instruments in an air test from an aeroplane.

AMBASSADOR TO AUSTRIA.

TOKIO, Nov. 22.—The appointment of S. Akid Seuki as ambassador to Austria to succeed M. Uchida, transferred to the United States embassy at Washington was gazetted today. S. Akid Seuki has been minister to Belgrade.

a half, by charging the lunch time to the office instead of to the employee. This is, in itself, a raise of wages of nearly seven per cent, since, at the same wage, it would result in a diminution of product to the extent indicated. This change, the publishers claim, is referred to later under the head of "Wages."

The chairman of your committee suggested in conference that, in asking for this change, the Sacramento Typographical Union is practically following the suggestion of the International to gradually work down to a six-hour day, which suggestion, he understood, had the endorsement of the American Newspaper Publishers' Association. If the idea was to work to a six-hour day at an eight-hour wage, the American Newspaper Publishers' Association has never in any way intimated an approval of it. As to the action of the International your committee would naturally be better posted, but we are not learned of such action on its part.

If the object be simply to secure shorter hours of labor without forcing an additional burden on the newspapers in composing room expense, such end can be attained by a bonus system, such as is now in force in Sacramento, or under a piece scale which would result, in practice, in releasing the operators as soon as they had turned out sufficient product. Whether the composing rooms can as easily get the longer hours, non-working the shorter hours, can be determined only by investigation.

Careful inspection of a bulletin issued by the American Newspaper Publishers' Association in April, 1929, giving similar data as to typographical scales in 133 leading cities of the United States and Canada, shows that comparatively few offices are working less than eight hours. In most offices where less hours are considered, there is a rigid competency line, sometimes coupled with a bonus system, which secures in the shorter hours, the same or larger product than the average office secures in eight hours; or there is a piece scale with minimum hours of work, but with no limit on the maximum, which serves the same purpose. Even in offices where these short hours are granted under these special conditions, it is usual to allow the office to call for a maximum of eight hours, but to let the operator work extra hours, if economical, particularly on an evening paper, to work the force short hours every day.

If the Sacramento Typographical Union desires to shorten hours under some conditions, it is not necessary to demand upon the publishers and permit the production of the papers in good season, we shall gladly give consideration to the matter.

WAGES.

The proposed scale increases the wage of operators 50 cents a day, and the wage of floor men \$1 per day, raising them to the standard of operators.

Making allowance for the increased wage, effected by the proposed shortening of hours, the net result is an offer for our consideration, proposed to increase floormen's wages 3.5 per cent.

To increase operators' wages 20 per cent.

Our ourselves have no knowledge of conditions, either local or general, which would justify any such enormous increase, or in fact any general increase. We are quite willing to arbitrate this issue if your Union thinks best so to do, but our position is an expensive and usually unprofitable one, and there are not lightly entered into by any one not fairly certain of his ground. We invite your careful consideration of the following facts, satisfied that additional investigation of your part will further strengthen our position in the matter by a mass of corroborating details.

We are advised by the Commissioner of the A. N. P. A., Mr. H. N. Kellogg, that in no instance, save one, in the history of the American Newspaper Publishers' Association, has there been an increase of typographical wages. The reason, of course, was that existing conditions did not permit the Union anywhere to make a showing which would justify an increase. The exception referred to was in France, where, because of peculiar conditions, known doubtless to your committee, and because the pressmen just previously had, under a remarkable miscarriage of arbitration, been awarded an increase which was not expected, and which was not justified by the facts.

The few instances of increase noted in the two years were secured through agreement with the publishers, either because the local scale was really too low, or because the publishers, for some reason, did not care to go to arbitration. In Fresno the scale was raised, (one of the Sacramento publishers being party of the contract) because it was found inadequate, and in accordance with the inducement competent operators to stay in the city save under increased pay.

In some instances the strong feeling existing between local newspapers regarding the raising of their scales, and the fact that the Union was enabled to bring in the scale otherwise than by arbitration, should be mentioned, but it is not necessary to fix the foreman's scale. The foreman's scale is fixed between himself and his competency, and is a matter of fact, several of our foremen are receiving in excess of the scale, but it seems hardly worth mentioning, as it is not the responsibility of the foreman to set an extra wage to make that increased wage the minimum for small offices as well.

It must be remembered, too, that in many instances the scales which are quoted as indications of what other cities are doing in advancing wages, are not, when closely examined, higher than the scale of the city in which they are being used. For instance, Spokane has been mentioned to us as an example of what Sacramento could afford to do. Spokane is paying for day work 60 cents an hour for a seven and a half hour day; but the bonus line of 5000 per hour, and 10 cents a thousand for all excess, so that the average wage is 60 cents per hour. The purchasing power of the average wage earner's pay envelope was, therefore, 6.8 per cent greater in 1927 than during the ten years, 1890 to 1920.

In the case of the Typographical Union the increase of wage has been even greater in the time named than is indicated in the statistics above, and the purchasing power of every Typographical Union member's pay envelope has been correspondingly increased over the rate of the average wage earner cited in the above comparison.

Since 1927 there have been no changes which would offset the advantage gained by the wage earner—that advantage has probably been increased, for there has been in various material which figure in the cost of living, a marked falling off in price during the last two years.

In Sacramento the general conditions of the country thus indicated in the statistics above, have been accompanied

in the case of the local Typographical Union. The time scale in Sacramento in 1890 was, for night, 45 cents per hour, and for day 15 cents. It remained so for ten, and afterward for nine hour-day for some time. It was advanced for competitors, with the introduction of linotypes in 1924, to 55 cents and 15 cents respectively, an increase, in one case, of 25 per cent and in the other of 43 per cent, or an average increase in the composers' scale of 24 per cent.

It was increased for floor hands in 1903 to 50 cents for night and 43 75-100ths cents for day—an increase in one case of 11 per cent, and in the other of 25 per cent, or an average of 18 per cent. These figures do not represent, however, the actual increase in the average wage of composing room employees, for, in 1890, the time scale was used only for a few men, all composition being done up to 1895 by hand at a piece scale. The records of The Bee show that the average weekly wage of its regular composing room employees (other than foreman and assistant, and eliminating slugs working a few days only), as gathered in each year from three weekly pay rolls, then haphazard, was:

For 1890	\$18.67
For 1895	\$18.79
For 1900	\$23.84
For 1905	\$24.57
For 1907	\$25.76

At present all of The Bee employees receive wages above the union scale, the average for floor men and assistants being \$23.25 per week, and for operators, \$27.53. The average weekly wage of all journeymen in the composing room, excepting foreman and assistant, is \$25.76, as indicated in the above table.

Between 1890 and 1907 there has been, therefore, an increase in the average weekly wage of the journeymen in The Bee's composing room of 38 per cent. This, however, is only the apparent increase. The actual increase is very much larger, for the ten-hour day was in force in 1890 in Sacramento composing rooms, while now and for some years past the eight-hour day has been in force. Based, therefore, on the average hour received by the men, or by the cost to the office of the service received, there has been in The Bee composing room from 1890 to 1907 an increase in average wages of 71 per cent.

Because of changes in management, figures from the Morning Union are not available, but in general business, it is assumed that the showing would be of a similar character.

There is, of course, no contention that cost of living in Sacramento has increased in any such proportion in that time, such an idea is sufficiently disproved by the fact that composing room employees, while living well and supporting families, have acquired in many instances homes of their own, while some have real estate and other investments.

The cost of business in the newspaper world, as compared with other business conditions, affords another reason why raises of scale, not justified by local conditions, are not warranted. In 1908, as compared with 1907, the advertising in New York newspapers fell off 33,000 columns; in Chicago newspapers, 50,000 columns; and in the Sacramento papers, 10,000 columns. Sacramento, as a rule, feels less than most communities a general depression. But yet the local advertising business, for that composing a marked decrease as compared with figures for the same time last year.

It is interesting to suggest to your committee, and through you to the Union, that in our judgment a demand for an increase in the general scale in Sacramento at this time is not being put by the men who are recognized as competent. Most of the men in the news-rooms are being paid above the scale because of competency. This recognition is a matter of pride to the office and to the employee as well, and it is not to be discontinued by raising the scale to the mark made by the office for special competency.

The suggestions above were intended to apply specifically to the proposed increase in operators, operators, machinists and foremen's wages. In the case of the floormen he raised in salary to the standard of the operators, he should be paid no less than the journeymen scale. The foreman's scale is fixed between himself and his competency, and is a matter of fact, several of our foremen are receiving in excess of the scale, but it seems hardly worth mentioning, as it is not the responsibility of the foreman to set an extra wage to make that increased wage the minimum for small offices as well.

It must be remembered, too, that in many instances the scales which are quoted as indications of what other cities are doing in advancing wages, are not, when closely examined, higher than the scale of the city in which they are being used. For instance, Spokane has been mentioned to us as an example of what Sacramento could afford to do. Spokane is paying for day work 60 cents an hour for a seven and a half hour day; but the bonus line of 5000 per hour, and 10 cents a thousand for all excess, so that the average wage is 60 cents per hour. The purchasing power of the average wage earner's pay envelope was, therefore, 6.8 per cent greater in 1927 than during the ten years, 1890 to 1920.

In the case of the Typographical Union the increase of wage has been even greater in the time named than is indicated in the statistics above, and the purchasing power of every Typographical Union member's pay envelope has been correspondingly increased over the rate of the average wage earner cited in the above comparison.

Since 1927 there have been no changes which would offset the advantage gained by the wage earner—that advantage has probably been increased, for there has been in various material which figure in the cost of living, a marked falling off in price during the last two years.

In Sacramento the general conditions of the country thus indicated in the statistics above, have been accompanied

yond that. The Sacramento publishers are quite willing to put into effect such a scale; so that apparently really the wage scale will be as high here as it is anywhere. As a matter of fact, most of the operators in Los Angeles are now being paid practically what their scale entitles them to.

The conditions which formed a basis for the scale in Los Angeles, which was your committee) are understood by every Union printer. The Los Angeles scale is a great one, and it is a matter of fact that most of the operators in Los Angeles are now being paid practically what their scale entitles them to.

The existing Sacramento scale is an old one, and it is a matter of fact that most of the operators in Los Angeles are now being paid practically what their scale entitles them to.

The existing Sacramento scale is an old one, and it is a matter of fact that most of the operators in Los Angeles are now being paid practically what their scale entitles them to.

Spring Valley's Offer.

To an outsider it would seem that the offer of the Spring Valley Water Company is a good thing for the city of San Francisco to accept. It is worth a good sum for San Francisco to be rid of the constant turmoil over the water supply. It is worth still more for the city to come into immediate possession of a water plant self-supporting, financially speaking, and in complete working order. The price at which the plant is offered—\$35,000,000—may be a little high, but whatever excess there may be in cost is more than compensated for by the advantages that go with immediate purchase and the elimination of all future complications, legal or competitive.

Acceptance of the Spring Valley offer will leave the city free to proceed with the development of its Sierra supply, which can be done at leisure without entailing heavy burdens on the taxpayers. The income from the Spring Valley plant will meet the interest on cost of purchase, roughly speaking, and the city will have its distributing and local reservoir system all ready in operation for the reception of the supply that will ultimately be brought from the mountains.

Financial as well as political expediency, on the surface at least, commends the purchase of Spring Valley, but apparently some people in San Francisco would rather inflict financial injury on the chief stock owners of Spring Valley than serve the interests of the city.

Signs of Local Prosperity.

The promptness with which the people of Oakland and Alameda are paying city and county and state taxes into the public treasuries this year is positive evidence that they are enjoying a high degree of prosperity and have the utmost confidence in the future. Both the city and the county tax collectors report a record-breaking collection of the first installment due, and in addition the payment of a considerable amount on account of the second installment which is not due until April. The indications are strong that at the close of business at the Tax Collector's offices today the list of delinquents on the first installment will be notably small.

No better evidence of the financial standing of a community than that illustrated in the collection of taxes is obtainable. Last year was a period of great financial depression all over the country. It was shown conclusively in the difficulty taxpayers everywhere had in raising money to pay taxes. Although Oakland suffered less from the effects of that depression than any other city in the State and recovered from it more promptly than any other city in the country at large of corresponding population, the large delinquent tax list of a year ago betrayed the tightness of the money market and the suffering which had been caused by the "frenzied financiers" of Wall street through their mad speculations and rash employment of the savings of the entire nation. The situation this year stands out in an agreeable contrast.

Wellman's Whack at Cook.

Now that rank humbug in Arctic exploration, Walter Wellman, who has been for years deluding wealthy credulous Easterners into outfitting his North Polar summer balloon excursions, has joined the Peary gang in denouncing Dr. Cook as a faker and a liar. It is in order for Wellman to produce a certificate of character for himself before passing judgment on Dr. Cook or any other polar explorer. Cook has submitted to the University of Copenhagen what purports to be the record of his trip to "the big nail."

The public can afford to reserve judgment until the experts chosen by the university have examined the record and rendered their verdict. If Cook is a faker and has manufactured "a fairy tale" they are sure to detect and expose the fraud. If, on the other hand, they reach the conclusion that Cook's records prove that he reached the "borean center," every scientific body in the world, unless it be the National Geographic Society of the United States, will give him due credit of priority of discovery of the North Pole. Of course, the National Geographic Society has done all that lay in its power in advance to discredit Cook and the Danish University also, and the persistent attacks of its members on Peary's rival has driven him apparently half crazy into a mysterious seclusion. One thing is certain, if Cook faked his story of the discovery of the North Pole it was done with marvelous skill and assuming that Peary's account of the dash to and from the pole is genuine with extraordinary fidelity to the conditions existing north of Grant Land and at the "borean center" itself.

One of the latest tricks of the tobacco trade is to put up Mexican cigars in Manila labeled boxes and palm them off on consumers as pure Philippine island products. Some people may be deceived by the petty fraud, but experienced smokers of the weed quickly become wise.

If San Francisco poultry and produce dealers are adopting the practice of dumping the refuse of their poultry and produce markets on Oakland or any east bay city, the application of the most drastic measures to put a stop to it adopted by the health officers will receive popular approval. Oakland is no longer a suburb of that city that can be treated in "any old way," and the sooner it realizes that fact the better for it.

Suppress Reckless Auto Driving

The killing of an aged man on San Pablo avenue yesterday is another tragic evidence of the contempt for human life that is daily exhibited by drivers of autos on our streets. As to who was to blame in that affair THE TRIBUNE will not express an opinion, as the case is now in the hands of the courts, but the incident is a warning against the reckless driving of motor cars through the streets and the incidental indifference to the rights and safety of pedestrians habitually shown.

For some strange reason the average auto driver, especially of machines let for hire, seems to think he has an exclusive right to the thoroughfares. This is constantly illustrated by the reckless way autos are driven through crowds at the chief street car transfer stations. Many chauffeurs apparently take a delight in scattering and frightening pedestrians, and not a few of them are insolent and abusive when protests are made against their conduct. Taking advantage of the immunity afforded by their position, they give the pedestrian the choice of getting out of the way in haste or being run down. The speed ordinance is treated with the same brutal disregard of public safety. Hence the frequency of accidents.

There needs to be stricter police regulation of auto running. The driver of a motor car does not own the streets, nor has he any preferred right to their use; neither is he at liberty to rush pedestrians off the crosswalks as if they were persons outside the protection of the law. If chauffeurs have no regard for human life, the rights of pedestrians or the mandates of the law they should be dealt with sternly; they should be held to a strict account for their acts and required to live within the law.

The streets should be made safe for people to traverse. It is shameful that certain crossings in the central part of the city are places of constant peril. The police power should be exerted to compel obedience to the law and a decent regard for women and children on foot. This thing of people being run off the streets or run down should be stopped at all hazards. The streets must be made safe.

Moreover, the practice of immature boys driving autos should be suppressed. No boy under eighteen years of age should be trusted to drive a motor car. But mere children are allowed to run them in this city and the adjacent suburbs. Boys hardly above twelve years of age, and even girls, are to be seen daily driving automobiles. The law should prevent this. It is even more dangerous to pedestrians and other vehicles than it is to occupants of the child-driven auto. It is high time the city and county authorities took decided action in this matter.

Cuba was formerly known in Spain as the "ever faithful isle." In later years it is building up a reputation in the United States of being the "ever troublesome and turbulent isle."

The decision of the Chicago Board of Aldermen to co-operate with the Drainage Canal Commission in the installation of an electric power plant at the outfall of the canal on the banks of the Illinois river, for the purpose of furnishing the city with a system of municipal lighting, shows how one public improvement aids to develop another. The Chicago plan now is to call an election in the spring to secure popular approval to a bond issue of \$2,000,000 or \$2,500,000 for the building of a municipal electric plant to utilize the enormous water power which is now being wasted at the canal outfall.

Nicaragua will have to conform to the rules of modern civilization or suffer the loss of its national identity. The time has come when no half way measure will be considered.

Notwithstanding that Oakland is far from getting full credit for the amount of business it transacts, as a large proportion of the settlements for the products of its numerous industries and the trading of its merchants figure in the San Francisco clearing-house reports instead of in the Oakland clearing-house, the fact that Oakland's business is steadily increasing cannot be obscured. The Oakland clearing-house showed that the local bank clearings for the month of November up to Saturday noon amounted to \$8,743,398.60. The figures for the same period last year were \$6,591,242.88. The bank clearings this month show an excess of nearly \$2,250,000 over last year's record. Imperfect, therefore, as the records of the Oakland clearing-house are as an index of the business really done in Oakland, they will show that we have handled in trade at least \$110,000,000 this year. If it were possible to get at the true figures embracing the value of the manufactures located on this side of the bay, as well as the actual trading done here, the statement would be no doubt more than double the amount named.

An epidemic of smallpox is raging at the Santa Barbara mining camp near Torreon, Mexico, and to prevent its extension into this State it will probably be necessary to establish a strict quarantine on the southeastern border.

The budget of the British government imposes a fair share of taxation on the ultra-rich landowners who have hitherto escaped taxation and thus indirectly relieves the poor and the middle classes who have in the past borne the burden of taxation—hence "the rub" in the House of Lords, whose members are "up against the real thing" for the first time in the history of the nation.

ROOSEVELT'S PART IN IT

Nobody in his senses could believe that Theodore Roosevelt would deliberately encourage or condone corruption in the public service of which he was the head. Yet the revelations in the sugar trust robbery of the Treasury have gone far enough to show that Mr. Roosevelt's administration was tainted with the blackest pitch. That he blinded his eyes to conditions which he could not have failed to see had he looked at them is patent, for they were laid before him by one of his subordinates. But a temperamental defect of Mr. Roosevelt dragged his administration into one of the foulest scandals that have disgraced government. This temperamental defect consists in Mr. Roosevelt's inability to stand anything but praise of himself and of anything for which he is accountable. No man could differ from Mr. Roosevelt's view without offending him. No man could tell Mr. Roosevelt that anything was wrong about what he had done, or what one of his creatures had done, without being held by Mr. Roosevelt to be his personal enemy. Agree with President Roosevelt and you were his loyal friend. Applaud what he was doing with his administration and you were a patriot. But question any part of it, or any man who had won his confidence in the manner we have described, and you were guilty of the basest treason.—New York Press.

New Navy Regulations

New navy regulations, supplanting the old ones, revised by Truman H. Newberry, will be made effective by Secretary Meyer on December 1. Changes to be made will be based on the Swift report.

Entangling snarls and the last of the inconsistencies likely to crop out in regulations covering all branches of the service have been practically settled, and there remains little outside of the final word of Secretary Meyer to make the task of the new navy reorganization complete.

Little is known of the changes to be made effective, except in the most general way.

The following items of interest concerning commerce and industry in Asia are collated from the London and China Telegraph:

The merchants of Kiangse, China, have subscribed \$39,000 gold to establish a telephone service throughout the province, and request the permission of the governor to do so.

The Chinese board of posts and communications intends to follow the foreign fashion by establishing postal and telegraph offices at all the principal railway stations for the convenience of travelers.

It is stated that the next Japanese budget will contain an appropriation of \$100,000 gold for the purpose of harbor construction at Tsauraga. This money is to be spread over four years in equal parts.

The merchants and gentry of Swatow, China, say that as the business of the port is increasing they do not want to be behind the times and so have subscribed \$200,000 to establish electric trams in the city.

In accordance with article 2 of the agreement signed at Peking by the Chinese and Japanese plenipotentiaries the Chinese Government has declared open to the residence and trade of foreigners, from November 2, the towns of Lung-Ching-tsun, Gau-tze-Chia, Tzu-tao-Kou and Tai-Tsao-Kou.

The Ta Ching Bank is to be fully organized as the official bank of the Chinese Government, and will be managed that in every important city or town throughout the Empire there will be found an agency. The capital will be increased greatly.

Important developments are shortly expected in Dell, Netherlands India, owing to the Government having decided upon a scheme to connect the railway there with Aru Bay, which has come into prominence for shipment purposes in the old districts. The Acheen Steam Tramway will be also extended to the bay. A commission of experts are working out the details.

The Manila Hotel Company has practically concluded arrangements for the erection of a four-story hotel with mezzanine, containing 150 rooms, on a most desirable site situated on the Luneta Extension and covering an area of 20,500 square feet. The estimated cost of the hotel fully equipped and ready for occupancy is placed at \$387,500 gold. Construction work will begin December 1.

The court of directors of British North Borneo have sent out to the Membakut estate a supply of seeds of the new rubber tree, the Manihot dichotoma, with which a few acres will be planted as an experiment. It is claimed for this tree that 1200 trees can be planted to the acre, that trees can be tapped when three years old, and that the latex contains from 70 to 82 per cent of caoutchouc.

The Shanghai-Nanking Railway, connecting the Shanghai-Nanking Railway and Hsia Kuan, is doing a thriving passenger business. A survey has recently been made for the extension of this line to Wuhu, a distance of about 60 miles, which will tap the second greatest rice district of China. It is said that this line will advance by easy stages through Kiangkiang to Hankow, and will, if possible, be built in its entirety by Chinese capital.

"Tallimore is one of the few American cities still old-fashioned enough to have a fashionable promenade. It runs over the steep hills of ancient Charles street, from the big shops at Lexington street, past old St. Paul's, the Walters art gallery, and the Washington monument to the northern region of apartment houses and clubs. There the smart folks of the town show themselves every afternoon—pretty little debutantes with talcum on their noses, stout old ladies with dogs, dashing young bucks with rolling eyes, and men of money from South street on their way to the Maryland club. And there, too, between four and five, rain or shine, winter or summer, you will see a spare, tall old gentleman in a straight-rimmed silk hat, with a touch of scarlet under his brim-to wit, James, Cardinal Gibbons, the ranking churchman of the United States, and peer, by the law of the Holy Roman Empire, of princes of the blood."

"To Cardinal Gibbons that daily walk is the most welcome, if not the most important, act of life. It is not a leisurely stroll, but a vigorous, swinging walk. It takes him some days far out Charles street to Mt. Royal avenue, with its string of monuments, and even to Druid Hill Park. The appalling grades of Charles street—it hasn't a foot of level ground in two miles—do not worry him. He takes them at a long, easy stride, brushing through the crowd of shoppers, idlers and dandies, and holding his pace steadily until his four or five miles have been accomplished. Now and then you will see a visiting bishop at his side, panting breathlessly up the hills, but more often he is alone. Publicans and sinners pass him the time of day; policemen salute; a friend drops into a step for a block or two. The greater the crowd the better he seems to like it."

"The cardinal was 75 last July, but there is still many a hard day's work in him. "Dinner-time at the cardinal's house comes shortly after noon. There is a good cook downstairs, and the chance most enjoys the meal as well as the company, but the head of the house himself is not there."

Friends of Daniel W. Long are planning to give him a gold watch for his part in winning the baseball championship by the Oakland club.

The work of macadamizing Nineteenth avenue, from East Fourteenth street to East Twenty-seventh street has been completed.

Pointed Paragraphs

A giggling girl is apt to become a cackling woman.
An eye-opener, what's the matter with an alarm clock?
Don't believe everything you hear over a telephone wire.
Only a fool tries to dodge the worst by sitting down and hoping for the best.

BLASTING ENDS IN COLLEGE TOWN

Harry Ceases to Operate in North Berkeley for All Time

LAST DAY OF NUISANCE EXPERIENCED SATURDAY

Spring Construction Company Retires and Residents Enjoy Peace

BERKELEY Nov. 29 — Peace now reigns supreme in North Berkeley and particularly among the hillside residents of that section for the blasting nuisance is no more.

Saturday was the last day of which the Spring Construction Company could operate its quarry and it did so with a vengeance. For half an hour just before time to suspend operations the tremors were set off in quick succession and the hills shook with the concussion. The reports were loud and resounded time and again.

For once the residents in the neighborhood did not complain. They simply tensed with a grim smile knowing full well that after Saturday they would have peace for the first time in years.

The Spring company retires from the quarry by its own volition but it did not make this move until the residents had put up a stiff fight against the renewal of the permit and as a last resort had circulated a petition to invoke the initiative granted by the new charter. When the company saw that the petition had been signed by more than the required fifty number of hillside residents, it withdrew at the end of a month. It is now expected to return to the University town forever.

ASSAULTED MAN IN JEALOUS RAGE

Painter Alleges Wife Clandestinely Met Man—Beat Victim With Trolley Controller

L. Warner was arrested this afternoon at the corner of Eighth and Broadway on a charge of battery perpetrated by George Sullivan. According to Warner, who is a painter by profession, his wife had been in the habit of coming to Oakland to meet Sullivan. He followed her to Oakland this afternoon and meeting her at Eighth and Broadway, he accused her of being intimate with Sullivan. She denied the charge and at that moment Sullivan appeared on the scene and Warner struck him in the face with his fist and knocked him down.

Just then an Eighth street car was passing and the trolleyman got off. As he did so Warner picked up the car and struck Sullivan over the head with the trolley controller. He was then taken to the station by Deputy Constable Smith and Police Officer S. H.

WARRANTS FOR GENERAL AGENT

Railroad Official is Accused of Embezzlement From Company

SAN FRANCISCO Nov. 29 — Attorney Frank S. McCallum, the legal arm of the Southern Pacific Company, reported to the local Justice Court this morning that he had secured warrants for the arrest of E. C. Kelly, a general agent of the company, on charges of embezzlement from the company.

On October 19, 1938, it is alleged that Kelly had stolen \$1,000 from the company and had used the money to pay for a vacation trip to Europe. Kelly is now in Europe and is expected to return to the United States in the near future.

MINERS RESCUED FROM BURNING FIRE IN MINE

MARION Nov. 29 — A fire in a mine killed in a New Mexico mine and 100 other men were rescued.

The fire broke out in the mine at about 10 o'clock this morning. The miners were working in the mine at the time and were rescued by a rescue team that arrived at the mine shortly after the fire broke out.

CHAMBER OF COMMERCE WANTS BETTER SERVICE

BERKELEY Nov. 29 — The Chamber of Commerce is planning to hold a series of meetings to discuss ways to improve the service to the public.

The meetings will be held on December 1, 2, and 3, at the Chamber of Commerce building. The meetings are open to the public and will be held from 8 o'clock to 10 o'clock each evening.

PIERCE CASE DELAYED A WEEK BY ERROR

ASTORIA, Ore., Nov. 29 — The case of the State of Oregon vs. H. C. Pierce, charged with the murder of a woman, was delayed a week by an error in the court records.

The error was discovered by the court clerk and the case was postponed until December 6. The case is expected to be heard on that date.

SCHUSSLER WILL DISCUSS PROJECT

Spring Valley Expert to Show Arguments Against Hetch Hetchy

ALAMEDA Nov. 29 — Hermann Schussler, consulting engineer for the Spring Valley Water Co., will present his corporation view of the Hetch Hetchy water project before the California club in Alameda Wednesday evening.

His address will be followed at 8 o'clock by the most able of the Hetch Hetchy project.

It is a project which has been practically synonymous with the city of Alameda since its inception. And he will turn from the project to a plain descriptive of the project and its second illustration by a series of aptly chosen maps and diagrams.

It will mark the beginning of the fourth year of the organization's existence.

The first proposal that the lecture should be for men only, but owing to the fact that the water situation has been the subject of much discussion in the evening of Wednesday, the lecture will be open to all.

A musical program will be presented under the direction of John De J. Jinks. The club will hold its annual jinks on the evening of Wednesday, December 1. It will mark the beginning of the fourth year of the organization's existence.

Fair Fencers of Berkeley Expert With the Sword

MISS SIBYLE MARSTON.

BERKELEY Nov. 29 — The first tournament of the Women's Fencing Club was held at Hearst Hall last week. The contest was in the form of a round robin each contestant fencing with every other one and each bout being fenced for three points.

Miss Sibyle Marston, 12, came first in the final score, winning four bouts and making twelve points. Miss Jeannette Steward won three bouts with a score of nine points, while Miss Mary Barton, 12, followed with a score of eight points, winning two bouts. Others taking part in the tournament were Miss Irene Coffin, 10, and Miss Doris Spencer, 12.

Miss Sibyle Marston, 10, who is the instructor in the work has announced her plan for next term. The work to be carried on in a different manner than has heretofore been used. An advanced class will be formed composed of the contestants in this tournament and several others and bouts will be held every week. It is planned to hold tournaments such as this every four weeks to which all college women will be invited.

With a view to providing Alameda county with a modern infirmary, the Board of Supervisors this morning took the initial step when it passed a resolution authorizing the district attorney and the chairman of the board to enter into a contract with L. J. Le Breton of San Francisco to acquire the California Safe Deposit and Trust Company for the purchase of 20 1/2 acres of land adjoining the present infirmary site. The price paid for the tract is \$500 an acre, or \$10,125 for the whole.

The acquisition of this additional land gives the infirmary site a frontage on the foot hills boulevard of about 2520 feet or approximately half a mile and plenty of land for new buildings and agricultural and industrial purposes. In addition to this there is a creek stream running through the property just acquired from L. J. Le Breton which the supervisors intend to dam up and utilize the storage water for street sprinkling and other purposes. It was the original intention of the supervisors to purchase from Le Breton only enough land—about an acre—to fill out the triangular cut-off in the southwest corner of the infirmary site to the price stated, but for only \$2000 saying that he wished to dispose of the entire tract at once. The supervisors finally concluded to take the whole holding and the price stated, which would be the entire 20 1/2 acres. All of the new land is in excellent condition and can be utilized with profit to the county. The water right it is believed will prove of inestimable value not only for road sprinkling purposes but other purposes as well.

STEAM HEATER STARTS FIRE IN ALAMEDA HOME

ALAMEDA Nov. 29 — During the absence of the Lind Leuenberger family from their home at 2905 Clinton avenue, Saturday night, two painted registers in the upstairs portion of the house became red hot and a telephone call of fire was turned into the fire department by a neighbor who was alerted by the smoke that was pouring from the windows.

The chemical engine from station 1 responded. Policemen C. D. Keyes and two of the fire fighters broke into the house and turned off the heat. Smoke damaged the interior of the house considerably.

CONFESION MADE

When a man who has been in charge of a ship and who at the time of the robbery was acting as night watchman, was arrested with the crime of robbery, he made a confession that he was a member of a gang and that he was a member of a gang and that he was a member of a gang.

He was a member of a gang and that he was a member of a gang and that he was a member of a gang.

1912 WOMEN TO AID SENIOR HALL

Plan Entertainment to Raise Funds for Co-Ed Building

BERKELEY Nov. 29 — At the last meeting of the sophomore women preliminary arrangements were made for the entertainment to be given early next term at Hearst Hall and that the musical and dramatic talent of the class should be utilized in a series of farces. While not as yet definitely planned the affair will be of an informal nature.

Canly booths for the sale of home made confections will be built. A small admission fee will be charged.

The finance committee has promised extensive advertising of the clever program planned by the general committee and urges every woman in college to help in this effort to secure the enterprise of the senior women.

Miss Hollice Shaw, vice president of the class has appointed the following committee to take charge of the affair: General managing committee—Miss Edith Jones, chairman; Miss Edith Ruth, Miss Irene O'Connor, Miss Gladys Baker.

Finance committee—Miss Fern Andrews, chairman; Miss Elizabeth Bridge, Miss Teresa Harrison, Miss Dorothy Bishop, Miss Dagmar Guntz, Miss Olive Thrall, Miss Hazel Lind, Miss Barbara Nechtieb, Miss Gwenndolyn P. Perry.

Booth committee—Miss Alice Paul, chairman; Miss Doris Spencer, Miss Ethel Lockhart, Miss Olive Bunco, Miss Catherine Walker.

SEEKING SITE FOR INFIRMARY

Authorization is Given for the Purchase of Land Near Present Site

With a view to providing Alameda county with a modern infirmary, the Board of Supervisors this morning took the initial step when it passed a resolution authorizing the district attorney and the chairman of the board to enter into a contract with L. J. Le Breton of San Francisco to acquire the California Safe Deposit and Trust Company for the purchase of 20 1/2 acres of land adjoining the present infirmary site. PASTOR SCORES THE RAILROADS

Clergyman Declares at Funeral That They are Careless of Life

LOS ANGELES Nov. 29 — "Too much liberty is being taken with the lives given us," said Rev. P. J. O'Reilly, rector of St. Patrick's Parish today at the funeral of a member of the Jacob family who met death Thanksgiving evening in a collision between a trolley car and the automobile in which they were riding.

We are becoming careless and reckless," he continued. "When I say this I refer particularly to the railways of Los Angeles that have guaranteed to protect the lives of the people."

"It is time for the people to stand up and defend themselves. We must demand and protection to insure safety for our lives."

I appeal to the men of this congregation to urge upon the officials the need for better protection of life."

Rev. O'Reilly said this was the ninth funeral service he had performed for members of his congregation who had been victims of street car accidents.

DEFECTIVE FLUE

Fire lost right old \$75 worth of damage to the home of W. T. Menden 1067 Alameda street. The origin of the fire was a defective flue.

CUBAN OFFICIALS IN WRECK

Arts and Crafts School Will Hold Exclusive High Jinks

MISS ELSIE JULLERAT.

BERKELEY Nov. 29 — There will be big doings at the Arts and Crafts school in Center street Thursday evening, December 2, when the students will hold a jinks. No outsiders will be permitted to enter the rooms on that occasion, but as the students number some 150, all told, the place will not appear at all deserted. The evening's program consists of a farce and vaudeville stunts and as the participants are among the jolliest of the girl students it promises to be most entertaining.

The first on the program is a skit in which Miss L. Hyde, Miss Donna Davis, Miss Ethel Chamberlain and Miss Marian Hoyle will take part. They have been rehearsing it behind locked doors and refuse to tell what it will be like except to say that it will be a scream from beginning to end. Then there will be a series of novelty dances and songs by Miss Elsie Jullerat and Miss Vela Hurst. Third on the program will be a vaudeville and light musical performance on this number is looked forward to with much interest. There will be other stunts followed by dancing in which all present will take part. A supper, in charge of Miss Moss will close the evening's festivities.

On the following two days commencing at noon and continuing until 10 p. m. the school will hold a bazaar in connection with its annual exhibition. This will be open to the public and large crowds of visitors are anticipated. During the two days there will be a sale of crafts to such as may wish to purchase. There will be a number of booths scattered over the rooms of the school and each will be presided over by a very pretty girl. Following are the booths and the young women in charge of each: Art Students' Association, Miss Lora Hyde, president; Miss Ida Manchester, vice-president; Miss Marian Hoyle, treasurer; Miss Gussie Ruzzo, secretary; Miss Wurts, sergeant at arms.

YACHT CLUB DANCE.
The Encinal Yacht Club of Alameda entertained Saturday evening last at

Miss Grace Layman, who left here about two months ago for a visit with friends in the East, is now the guest of Miss Vera Hamilton of Pittsburg, who visited relatives and friends here a year ago.

Miss Layman is planning to leave Pittsburg about December 15th, and

Raided With Found Str

LONDON.—Lady Frances Balfour, whom King Edward has appointed a member of a Royal Commission to revise England's divorce laws, one of the most remarkable investigating bodies ever called together. Lady Balfour is the sister of Arthur Balfour and is well known for her deep and active interest in social questions and an active suffragette.

Now, I am certain that my grand-
mother never worked so hard to keep
her husband, but this is an age when
men will stray, the divorce court yawns
constantly, women are many and eligi-
ble men scarce. So if you have a good
man hold on to him, I say, and always
try to keep him amused and interested.
Men are just grown up children, and
must be amused and interested in the same
way. Never for your life let them say
anything for their own good—they always
hate it—don't preach and don't nag. No
matter what you may think—and your
thoughts are your own—don't disagree in
small things. Go ahead your own way
and convince the dearest man on earth
you are doing his way, and he will be
perfectly content.

An anniversary dinner delightfully informal and in the nature of a surprise was planned for Mrs. Philip E. Bowles Friday evening at the Fairmont, where Mr. and Mrs. Bowles and Miss Amy Bowles are spending the winter.

The guests at the pleasant affair were:

Miss Dorothy Taylor's tea Thursday will be one of the largest affairs of the week, about two hundred invitations having been issued.

Miss Taylor is the charming daughter of Captain E. F. Taylor on Vernon Heights. She will be assisted in receiv-

Baby table, Miss Martha and Miss Margaret Baldwin; fancy work table, Mrs. James R. Tallman and Mrs. A. W. Moore; household table, Mrs. R. A. Leet; candy table, Miss Clara Brown; ice cream table, Miss Alice Flint; coffee table, Mrs. E. N. Moore; delicatessen table, Mrs. R. A. Lavenston; potted plants, Mrs. Albert Claarsen.

Robed in white translucent pall,
Mighty in thy shining power,
Dazzling vision of an hour.

None thy mystery may know,
As thou camest thou must go—
Fading god, by earth outworn,
So, in mist, to heaven upborne.

—Helen Huntington.

WOLCAST-POWELL MATCH AT DREAMLAND TONIGHT

YOUNG LIGHTWEIGHTS BATTLE FOR CHANCE AT BAT NELSON

Tonight's Boxing Card of Mission Club a Classy One—Powell and McCarthy Selling as Favorites in the Betting

By EDDIE SMITH.

HERE are times when a writer hesitates a long time before he is willing to go on record as saying that any particular boxing contest will be a good one. Often this hesitation is brought about through the fact that some rising young fighter is to meet a time-tried veteran who so badly outclasses the younger that it seems foolish and then, on the other hand, the younger might be meeting a man who has long passed his days of usefulness in the ring. These things always cause a suspicion as to whether one or the other of the men will be able to make a fight if the battle is a fast one.

With the contest of tonight between Lew Powell and Adolph Wolgast there is no hesitancy on this score, for a careful comparison of the two young men as to ability and age would leave the impression with most anyone that no matter who the winner may be, the battle will be a hard-fought one from the first to the last round should it go the limit.

The contestants will enter the ring tonight with a confidence of victory that youth alone can possess. The longer a man is in the boxing game the more he looks with seriousness upon the chances of the young man winning, but with Powell and Wolgast, the fear of losing has not yet entered into their make up. Wolgast is the stranger to San Francisco and he will be just a bit timid of the chances of receiving fair play in a new town. Just the moment that the bell sounds for the first round, however, this feeling will leave him and he will be after his man just the same as if he was fighting at Milwaukee.

WOLGAST CONFIDENT

The fact that Powell will in all probability enter the ring a 2 to 1 favorite has had no effect on the visiting lad's confidence at all. With his manager, Tom Jones, it has had the effect of making him suspicious and none too confident, but the fighter is sure that were the light taking place in any other city but San Francisco he would be the favorite, and for that reason he has little care for the odds of the betting.

When the men start on their twenty-round journey it is highly probable that Wolgast will set the pace from the start. Cartoonist Shields, after having watched both men in their boxing and sized up the build of each man, has suggested the idea that the scrap will be one between a bull terrier and a bulldog. Wolgast, the bull dog, is larger of bone, shorter of stature and bigger of muscle, and for strength in the matter of lifting or wrestling is no doubt the stronger. Powell is after the terrier type of the bull. He is taller and his little figure does not give out the impression of bodily strength that such as Wolgast's does.

Powell is the quick-moving, clever fellow, but one who, like the terrier, knows no such thing as defeat, and once he gets the upper hand on the young fighter there will be no rest for the aspiring young man, whose ten-round battle with Nelson has boosted him to the front ranks of the lightweight division.

VISITOR THE AGGRESSOR

The contest will no doubt result in an affair in which Wolgast will be after Powell from the clasp of every round, and Powell picking him off with straight punches and endeavoring to keep inside of the swings of his opponent. If Powell stays off and tries to exchange punches with Wolgast from a distance he will be beaten, for at that sort of milling Wolgast has proven himself just as tough as the famous Battling Nelson. If he forces himself inside of the swings and fights his man with short arm blows he has an excellent chance for victory, and is by every right the favorite in the betting. That the man who wishes to back the red-haired fighter should have to give any odds as the backers of Wolgast are asking, however, is all together wrong, for by no way of figuring does the local man figure a 2 to 1 favorite over the rugged, hard-fighting kid from Schlitztown.

Jack Walsh, who will referee the contest, has visited the contestants and talked over the rules with each of them, and Walsh advised him that he had better not try any of this sort of thing while appearing in San Francisco. It is not thought that Wolgast is intentionally rough, but it is believed that he may accidentally hit low when he starts his wild swings to working.

In the preliminary Frankie Smith and Tommy McCarthy will meet in a fifteen-round bout for many a day. Smith is a 10 to 7 favorite in the betting. Smith and McCarthy fought ten rounds to a draw last month and since that time the fans have been more than anxious to see the men at one another again. The weight, 155 pounds at 4 o'clock, has bothered Smith some, but he claims that the warm weather of San Rafael has made it possible for him to make the weight without weakening himself. The contest will be a preliminary and will start at 8:30 o'clock sharp and immediately after it is decided the main event will be brought into the ring. Should the contests go the limit the fans will be treated to thirty-five rounds of boxing between fighters whose ability means that the fighting will be anything but tiresome to watch.

Jeff-Johnson Fight Bids Close Race for Honors Open on the Jersey Side

NEW YORK, Nov. 29.—On Wednesday bids for the Jeff-Johnson fight and Johnson will be opened.

From the West, and even from Australia, have come many scold proposals, but their contents are not known. The latest of the telegraphic variety was received yesterday.

The Great Falls, Mont., Athletic Club offers \$15,000 purse for the coming Jeff-Johnson fight. We have assurance of protection from authorities. Can start on arena at once.

It was proposed to open the bids at Madison Square Garden Wednesday night at a carnival of boxing and wrestling bouts, but Police Commissioner Baker forbade it, and the promoters, it was said, will attend to this preliminary across the river in New Jersey.

United Railroads Show—"One Round" Hogan and Joe Cruz, the crack lightweight, will head the United Railroads show Friday night. Myrtle Beach, S. C., Roy Kency, heavyweight, have been matched and Mitchell and Rame will fight it out in the feather-weight division. Eddie Campbell vs. Alvarado, George Andrews vs. Bull Thomas and three preliminaries have been arranged to precede the attraction card. Owners to the limited seating capacity of the car barns the club has decided to hold the fights in the Auditorium.

What kind of a punch will knock Johnson into slumber?

What kind of a slug will put Jeff into the palace of dreams?

There is not much doubt that the winner of the big fight will establish a new record in the amount of money won in a single purse. A fortune in a single punch has been the feature of many big fights.

Joe Gans went to Port Erie, stepped into the arena with Frank Erne and the one punch that put Erne to sleep in the Joe Gans fight, and immediately it was the same when Fitzsimmons put Corbett out and Corbett put Sullivan away. The Jeff-Johnson house will be at least worth \$50,000 in receipts.

CLAREMONT GOLFERS WIN

The Claremont Country Club golfers defeated the Presidio players yesterday in the home and home contest, the local club finishing with a kind of 11 points. On the Presidio course last week the San Franciscans won five, Claremont three and three were halved.

After having seen both Powell and Wolgast in action, Cartoonist Shields compares them in the above fashion. One strong and fierce looking and the other lithe and clever.

Hard Hitting Features Athletic-National Games

Sunday, the day of rest, was one of unrelenting with the Athletics and Nationals. Four home runs, a triple, five doubles and thirty singles, represents the day's slugfesting. It is the kind of baseball fans 'eat up' and the sport was thoroughly enjoyed. In the morning the Nationals breezed across the wire 10 to 4. Harry Krause, the St. Mary's boy, was pummeled in the opening round and the whipping continued throughout the nine sessions. Mitchell and Lennox tore off four-base swats, that of Mitchell's being a corker, going over the center field fence near the score board. "Big Bill" Burns, the Point Richmond boy, who was traded to the Chicago White Sox by Washington for Jiggs Donahue, Cravath and Hanssens Altrock, was on the points for the Nationals and safely squeezed his way through the game.

The afternoon contest had a different complexion entirely. The Athletics doing the slugfesting. Struck peppered the Nationals with a succession of home runs and Baker a little later clouded the ball over the screen for a four career. Bender's grand pitching prevented the Nationals from doing much.

HAMPTON LOSES IN HANDBALL. At Hampton was defeated in the Olympic Club's tournament yesterday. The former champion was not up to his usual game and lost two straight games to J. R. Mack, a new member, who showed a lot of skill.

The scores for the day's play were: First class—J. R. Mack beat A. C. Hampton, 21-8, 21-17. Second class—Dr. Converse beat Fred Sherry, 7-21, 21-17, 21-11. Third class—M. A. Martin, 21-5, 21-8. Fourth class—A. Garbarino beat I. Friedman, 21-14, 21-7. G. Vancouver beat W. A. Breen, 21-20, 21-14. H. Stern beat George Ornard, 21-17, 21-4.

Gov. Hughes Takes Steps to Stop Boxing Match Near Albany

ALBANY, Nov. 29.—Governor Hughes has written District Attorney Sanford and Sheriff Besch of Albany county that, having received information that the Knickerbocker Athletic Club of Albany had planned a twenty-round prize fight to take place at Bulls Head on the Troy road on December 2, he would hold the authorities responsible for any violation of the law.

Swimmers in Academic Athletic Meet Named

Many of the best amateur swimmers around the bay district from the different schools are entered in the swimming meet which will be held under the auspices of the Academic League next Friday night at the Sutor baths. The entry list is a nice one and is as follows: 100-yard dash—Gilbert (C. P. C.), Ackerman (L. H. S.), Meyer (L. H. S.), Roncken (P. H. S.), McNeill (P. H. S.), Margo (C. S. M. A.), Salfeld (W. S. I. A.). 400-yard dash—Mayo (C. P. C.), Ackerman (L. H. S.), Ranschoff (L. H. S.), Ashley (P. H. S.), McNeill (P. H. S.), Margo (C. S. M. A.), Salfeld (W. S. I. A.). 200-yard dash—Gilbert (C. P. C.), Meyer (L. H. S.), Halbert (C. S. M. A.), Dreyer (C. S. M. A.), Stafford (M. H. S.), Rademaker (W. S. I. A.). 800-yard swim—Bayliss (C. P. C.), Ranschoff (L. H. S.), Ashley (P. H. S.), Carroll (P. H. S.), Margo (C. S. M. A.), Salfeld (W. S. I. A.). Relay race, six men, 300 yards—University of California, vs. Olympic Club. High school relay race, six men, 50 yards each—Coggswell, Lowell, Polytechnic, Lick, Mission, Wilmerding.

Reid Chosen to Referee Alameda 'Poly' Game

The Alameda Polytechnic football game, which resulted in a tie on Thanksgiving, will be played over next Saturday at the new Presidio grounds and William Reid of Belmont, the well-known coach, will act as referee. Lieutenant F. A. Price and William Middleton will be his assistants, the former as umpire and the latter as field judge. Both sides are confident that the game will be a good one. The kicking and hickering over decisions which characterized the Thanksgiving game will be done away with. With the championship still hanging in the balance, enthusiasm is running high at both schools and the teams are being put through a vigorous week of training.

Ed Gerst to Keep Racing Horses in United States

MEMPHIS, Tenn., Nov. 2.—"America is good enough for me. I don't think those foreigners are any too fond of us anyhow and I will stick to racing in this country as long as I live."

This statement was made by Veteran Ed Gerst yesterday in a cable message that he intended making the coast of the Pacific and trotting material in several American millionaires' strings to compete next season in Berlin, Vienna and the Russian tracks. Gerst believes American harness racing will receive its greatest boom in America in the next few years. He has gone into winter quarters with his string, including the unbeaten "The Harvester," and will not tour Europe, he says, "unless on a sightseeing trip."

Sheridan Breaks Record—New York, Nov. 29.—Martin J. Sheridan of the Irish-American A. C. made a world's record yesterday with the forty-two pound stone, which he hurled twenty-seven feet and one-half inch, four inches better than the mark set by James Mitchell many years ago.

Detroit Tigers Lose Again—Havana, Nov. 29.—The Alameda baseball team today defeated the Detroit Amateurs, 4 to 2.

Pitcher Ferguson May Report East Next Year

CINCINNATI, Nov. 29.—Pitcher Frank Ferguson of California will report here for duty in the spring, say his friends, who have heard from him recently. He has never been induced to report home, but President Hermann says he thinks he will this year. His case is being reviewed by the president of the California State League.

ED SPENCER BATS 300: MILWAUKEE, Nov. 29.—Only one pitcher, Catcher and Spencer of Milwaukee, has a batting average of more than .300, according to the official batting averages of the American Association, issued yesterday by President Joseph D. O'Brien. Spencer has an average of .350 for thirty-four games.

Big Change for White Sox—Manager Hugh Duffy and President Comiskey have come to the conclusion that the White Sox home-chasing must take place. This means that Chicago fans who patronize the American League games are going to see a lot of new faces at the new park being built by Comiskey, and that a great deal of young blood is to be introduced into the White Sox.

John L. Taylor, owner of the Boston Americans, who is at present in California, will return here to attend the annual meeting of the American League, which is to be held December 15. After that he will return to California once more.

ENGLISH REFEREEING. Jeffries has looked up with an English idea and wants the fight between himself and Johnson refereed from the outside of the ring. Now Jeff forgets that there is a great deal of difference between English and American methods of fighting. In London, I must admit that the English method is cleaner and a fight under strictly English rules gives the referee one-half less work than in American boxing. The whole rub lies in the clinch. It is not infrequent that a fight before the National Club in London (a good fight between scientific men) goes from fifteen to twenty rounds without a clinch; nothing but clean hitting. Jeff ought to remember that a referee must be where he can see when the breakaway comes.

THE RECORD MEDICAL INSTITUTE

WE OWN AND OCCUPY THIS ENTIRE BUILDING, WHICH IS DEVOTED EXCLUSIVELY TO THE TREATMENT OF MEN'S DISEASES

DO NOT BE MISLED BY false statements of "self-cured specialists" who sell under fictitious names and whose empty promises are intended to deceive.

It is not worth your while to come to us and receive treatment that will cure you, rather than to go to an inexperienced doctor or some cheap fakir, whose sole object is to get your money. Our methods are scientific and LEGITIMATE. Our fees are always LOW.

WRITE if you cannot call. Our home visits are made at any hour, day or night, confidential. Examination free and private. Hours, 9 a. m. to 8 p. m.; Sundays, 9 to 2. Send for diagnostic blank.

ARCHIBALD LEADS WINNING JOCKEYS AT WILLIAMS PARK FOR LAST WEEK

Rides Four Winners in One Day; Coburn Nearest Rival, With Mentry and A. Walsh Third and Fourth

By LEE DEMIER.

Of the successful trainers at Williams Park the first week, "Mick" Garity sent four winners to the post, O. H. Bianchi (Daggie Smith) and Del Fountain each saddled three and Horning, Farris, Howell and Haver two each.

Jockey Archibald, who is easily the best horse pilot took the riding honors, being the riding four winners in one day, rode the winners of the last race five days in succession. In twenty-six mounts Archibald rode ten firsts, seven seconds, one third and was unplaced eight times. His nearest rival, Coburn, had seventeen chances, rode four winners, three seconds and was ten times unplaced. Mentry and A. Walsh each rode three winners.

The week's record of the riders follows:

Jockeys	Mounts	Won	Sec.	Thrd.	Unp.
Archibald	26	10	7	1	8
Coburn	26	4	3	0	19
Bianchi	26	3	0	0	23
Farris	26	3	0	0	23
Howell	26	3	0	0	23
Haver	26	2	0	0	24
Cavanaugh	26	2	0	0	24
McGowan	26	2	0	0	24
McNeill	26	2	0	0	24
Miller	26	2	0	0	24
Reid	26	2	0	0	24
Spencer	26	2	0	0	24
Thompson	26	2	0	0	24
Wilkie	26	2	0	0	24
Yankee	26	2	0	0	24

What has become of Jockey Eddie Daggie? Reports have it that he left New York two weeks ago for his home in Oakland. It may be that he is trying equal Weston, the famous pedestrian's record, to foot it across the continent.

It is reported that owner Matt Rala, who has a stable of thoroughbreds at Williams Park, is contemplating shipping to the scene of racing across the bridge from Paso, Texas, the noted horseman may manage to make his money when he arrives here today from Seattle.

The climate has worried winners with the stable of Bill Hawke. The Oakland horseman has won two races in a row the past week.

Trainer Howley writes that he will bring slow stages from Oakland with him this week from the ranch.

Fourteen horses the property of E. D. McKenzie, the Canadian millionaire, are due this morning. Trainer Ed White, who is in charge of the horses, wired to E. D. McKenzie to have stalls bedded down.

Reader—The following horses are owned by J. O. G. H. Keene: Boggs, R. C. Chequer, Nagasaki, Bois, Graham and Rabbie.

The other day at Latonia, Dave Henry, former trainer for Jockey Schieber, bought Anna McGee from E. D. McKenzie for a reported price of \$5000. The noted Oakland horseman will race at Jaurez, Mexico.

Passenger, the well-placed good thing in the race affair, came near being side-tracked.

The struggle through the stretch between Bubbling Water and Early Tide for supremacy in the Oakland Handicap was worth the price of admission itself. It was a real "hoop" race.

Trainer W. P. Maxwell put one under the wire in the Oakland Handicap, Minnedoca, walked away with the first number on the card Saturday.

Zinkand, which takes its name from the well-known San Francisco caterer, and which was well supported to annex the Oakland Handicap, was the best of the bunch. The Bannockburn gelding won his last race at Vancouver from a much better field.

Bubbling Water, the winner of the handicap, was the cause of his many backers partaking of the stuff that sparkles.

Early Tide struck a flood gate nearing the shore.

Boggs, who was well thought of by the stable, was a great favorite, but with webbing and never got going until the race was over.

It was a real "hoop" race around the track yesterday that the firm of Dunkin & Garity, who have the best stable of noted runners at Williams Park, and also the best rider (Archibald), will leave this week.

ALBION ROVERS AND 'VAMPS' TIE

Best Soccer Game of the Year Is Played at Freeman's

What was undoubtedly the best soccer game of the year was played yesterday afternoon at Freeman's Park, where the Albion Rovers and Vamps locked horns. The match was witnessed by a large delegation of rovers and fans, and the game was a real treat to the spectators. The Albion Rovers, who were the favorites, were defeated by the Vamps, who were the underdogs. The game was a real treat to the spectators, and the Vamps were the winners.

Jack McKenna, E. J. Jackson, a former Thistle, played with the Vamps. McKenna, who was the captain of the Vamps, was the star of the game. He scored two goals, and his team won the game. The game was a real treat to the spectators, and the Vamps were the winners.

ELKS AND NATIONAL UNION TO PLAY BENEFIT BALL GAME NEXT SATURDAY

Photograph of the National Union Baseball Team which plays the Elks next Saturday at Freeman's Park in a benefit game. Players in picture reading from left to right, top row—Koch, Pratt, Schnobel, Hillier, Van Alstine. Middle row—Hart, Hedemark (manager), Donahue, Lee. Bottom row—Pepper.

All lovers of a good game of baseball will be given an opportunity to enjoy themselves next Saturday afternoon at 2:30 p. m. at Freeman's Park. The Elks and the National Union, both well-known fraternal organizations of Oakland, will be the contestants and the Elks team is well known to all as a team of players that can play baseball.

The Elks are an excellent bunch of fine looking men, noted everywhere for their handsome countenances, but wait till you see the National Union boys. So appear 25 cents and see a good game of baseball.

James Shanley will manage the Elks, and J. C. Hedemark will take care of the business end for the National Union.

The indoor baseball league games will be resumed next Thursday night, at Piedmont skating pavilion. The acquisition of a team from the National Union completes the quota of twelve teams and the series will now open in earnest for the season.

The season will close the last week of March, 1910. Last Friday evening a meeting of the board of directors together with the managers and captains of the teams was held at Woodman Hall, 414 Eleventh street, to consider all arrangements of the season.

ALAMEDANS WIN CHAMPIONSHIP

Large Crowd Watch the Alerts Trim Maxwells at Grove Park

The Alameda Alerts carried away the honors in yesterday afternoon's contest with the San Leandro Maxwells upon the State League grounds in this city, and thereby gained the championship of the Transbay League for the year 1909. The game was the concluding engagement of a series of five between the winners of the two half seasons, each team having previously captured two of the post-season contests.

A crowd of 1500 fans or thereabouts was on hand to witness the sport, and they were afforded numerous opportunities to manifest their enthusiasm in behalf of one or the other of the contending teams.

The Maxwells lost principally because of their inability to solve the puzzling curves of Bill Russell, the star pitcher of the Alerts. He had an assortment of benders and drops, plenty of speed, and perfect control, and the San Leandro boys were lucky to secure two singles, while ten of them were sent back to the bench by the Alerts' hurler.

A second reason for the loss of the game is to be found in the poor support accorded Twiliter Peterson at critical moments. Not one of the Alerts' runs was earned, and while the unexpected loss of the Maxwells' slabster involved him in one or two dangerous situations, he would have held his opponents without a score but for misplays of the fielders behind him.

The Alerts sent their first runner around the circuit in the second inning after two had been retired. W. Merriman placed a hard drive in left, and continued to the plate when Russell hit him. As the latter stole second, Westphal threw toward third in an effort to catch Merriman off the bag, but the peg was low and the runner scored. The bell rang again in the following round, when Du Fossee was hit by pitched ball, took second on M. Ryan's sacrifice, third on a passed ball, and crossed the plate on D. Peterson's sacrifice. The final score was added in the sixth, and was the product of an error by Merritt, a single which Twiliter allowed to escape him, and W. Merriman's sacrifice.

The Maxwells were never dangerous except in the eighth, when a couple of misplays allowed runners to rest on third and second with one out. The next batter, however, was easily retired.

Britt was the only player on either team to secure more than one hit. The game was marked by the absence of any sensational features, Merritt usually being the steadiest player on the field, had an off day, being charged with three errors, but he partially atoned for his poor work by assisting in pulling off a fast double play, the only one of the game.

SHE SHOOTS LOVER, THEN ENDS LIFE

Missouri Girl Follows the Example Set By Alma Bell of Auburn

WEST PLAINS, Mo., Nov. 29.—Margaret Payne, a pretty blonde, 20 years old, shot and fatally wounded her lover, Everett Benn, yesterday, and then killed herself by drinking carbolic acid. The man is dying, with two bullet wounds in his head and another in his body. "He has ruined my life. I have shot him to save others," said the girl with her last breath.

The couple had been sweethearts for more than a year and friends of both of them thought they would be married before the end of the year. Benn spent most of his time with Miss Payne until about a month ago, when he began to be seen in the company of another girl. Miss Payne had been reading in the papers the account of the trial of Alma Bell, the Auburn, Cal., girl who shot and killed her faithless lover. At one time during a discussion of the case Miss Payne put up an argument in defense of the slayer.

PEACE EXHIBITION PLANNED. THE HAGUE, Nov. 29.—Plans are under consideration for holding a great international exhibition here in 1913 in celebration of the opening of the Palace of Peace.

YOUNG HEROINE RESCUES CHILD

Girl Snatches a Little One as It Squirms Near Third Rail

NEW YORK, Nov. 29.—Remarkable luck and the bravery and presence of mind of Bertha Rosenthal saved the life of Cecilia Snyder, a 3-year-old child, who fell from the window of a moving Second-avenue elevated train directly between the dread third rail and an inner car rail, just in front of the north-bound platform of a station.

Miss Rosenthal, who was on the south-bound platform, noticed the child lying on the track and, throwing aside her fur and jacket, she leaped upon the track and made her way across the rails to the baby. She found Cecilia tightly wedged between the rails, but by using all her strength she succeeded in tearing her loose just before a train came rushing to the station. Cecilia was little hurt and was soon restored to her distracted parents.

CHICAGO, Nov. 29.—Dynamite in coal is believed to have been the cause of an explosion last night in the furnace of the American hospital in which the lives of patients, nurses and doctors of the institution were imperiled. The explosion, which took the heating plant. Hospital authorities believe dynamite from the coal mine was in the coal and have ordered that all the supply in the bins be taken back by the company from which it was purchased.

"BIG EIGHT" COLLEGES TO HOLD CONFERENCE

CHICAGO, Nov. 29.—Faculty representatives from the "big eight" colleges are billed to meet once more in Chicago this winter in a special session to consider the question of reorganization of the conference group and possibly to definitely accomplish the threatened breaking of ties between the leading western universities. The gathering is slated for early in January.

According to leaders, the proposal to form a "big five" of Chicago, Michigan, Minnesota, Wisconsin and Illinois will be the real subject of discussion at the meeting. Protests on the new laws made at the November 12 meeting, however, are expected to be the outward reasons for another assembling of the athletic clan.

Kills Her Foe of 20 Years. "The most merciless enemy I had for 20 years," declared Mrs. James Duncan of Haynesville, Me., "was Dyspepsia. I suffered intensely after eating or drinking and could scarcely sleep. After many remedies had failed and several doctors gave me up, I tried Electric Bitters, which cured me completely. Now I can eat anything I want to eat and am overjoyed to get my health and strength back again. For Indigestion, Loss of Appetite, Kidney Trouble, Lame Back, Female Complaints, it's unequalled. Only 30c at Osgood Bros.

Your cough annoys you. Keep on hacking and tearing the delicate membranes of your throat if you want to be annoyed. But if you want relief, want to be cured, take Chamberlain's Cough Remedy. Sold by Osgood's Drug Store.

CHICAGO, Nov. 29.—Dynamite in coal is believed to have been the cause of an explosion last night in the furnace of the American hospital in which the lives of patients, nurses and doctors of the institution were imperiled. The explosion, which took the heating plant. Hospital authorities believe dynamite from the coal mine was in the coal and have ordered that all the supply in the bins be taken back by the company from which it was purchased.

Men's Diseases Only

I have practiced my specialty for ten years, treating and curing thousands of cases like your own.

"WEAKNESS" There is no other physician treating this disease by the method of obtaining results that even resemble my complete and permanent cures. I employ no tonics, stimulants or electric belts.

I also cure Contracted Disorders, Syphilis, Blood Poison, Stricture, and Piles.

Consultation and advice free at office or by mail.

BLOW AIMED AT THE TENEMENTS

Owners of Unsanitary Buildings Come in For a Severe Arraignment

NEW YORK, Nov. 29.—Owners of unsanitary tenements and manufacturers who pay their employees pittance are arraigned in a bulletin issued lately by the committee on congestion of population in New York as greatly adding to the burden of taxpayers.

Robert W. Hebbard, commissioner of public charities, is quoted as pointing out that congestion of population is contributing largely to the \$10,000,000 yearly which New York spends on her departments for the prevention and cure of disease and the committee shows by tables appearing in the bulletin that the expenditures by the city for the care of victims of congestion are increasing more rapidly proportionately than the population and the city budget. The committee then asks whether the city should put a premium upon the exploitation carried on by those who profit by the congestion of population.

When The Stomach Stops

Working Properly, Because There Is Wind in It, Use Stuart's Dyspepsia Tablets to Set It Going Again.

A Trial Box Free.

THE DOCTORS call it flatulency, but unprofessional folks know it as "wind on the stomach" and a "mope" distressing state of things it is. It is a serious condition of this great motor organ. Always annoying and painful in the extreme, at times leading to bad and fatal results. The stomach, embarrassed and hampered with wind, cannot take care of its food properly and indigestion follows, and this has a train too appalling to enumerate. The entire system is implicated—made an active or passive factor in this trouble and life soon becomes a questionable thing.

ALL THIS IS EXPLAINED in doctor books; how undigested food causes gases by fermentation and fermentation, in which process some essential fluids are destroyed—burnt up—causing a "mope" distressing state of things it is. It is a serious condition of this great motor organ. Always annoying and painful in the extreme, at times leading to bad and fatal results. The stomach, embarrassed and hampered with wind, cannot take care of its food properly and indigestion follows, and this has a train too appalling to enumerate. The entire system is implicated—made an active or passive factor in this trouble and life soon becomes a questionable thing.

A BARRAGED STOMACH is the epitome of evil, nothing too bad to emanate from it, but the gas it generates is probably its worst enemy. It is a serious condition of this great motor organ. Always annoying and painful in the extreme, at times leading to bad and fatal results. The stomach, embarrassed and hampered with wind, cannot take care of its food properly and indigestion follows, and this has a train too appalling to enumerate. The entire system is implicated—made an active or passive factor in this trouble and life soon becomes a questionable thing.

TRIAL MARRIAGE IS A SUCCESS

The Robbins Will Nest Again; This Time it Will Be for Good

SAN FRANCISCO, Nov. 29.—Score one for the efficiency of the trial marriage is recorded in the happy culmination of the experiment of Archibald W. Robbins and his wife, who after a five-year test of happiness topped off by a year's separation, just to see what the effect would be, have at last announced their intention of taking up the bonds "until death do us part."

The trial marriage had its inception amid much notoriety and comment, six years ago. Robbins, who at that time owned a restaurant at 418 Market street, met and loved Minnie Rosenski, a beautiful Russian and member of the free love cult. He suggested marriage. She demurred, just to see what the effect would be, have at last announced their intention of taking up the bonds "until death do us part."

The trial marriage had its inception amid much notoriety and comment, six years ago. Robbins, who at that time owned a restaurant at 418 Market street, met and loved Minnie Rosenski, a beautiful Russian and member of the free love cult. He suggested marriage. She demurred, just to see what the effect would be, have at last announced their intention of taking up the bonds "until death do us part."

Newspaper Artist Wedded To Pretty Society Girl

MRS. JOHN GUM (nee Florence Sherburne), who became the bride of well-known newspaper artist at pretty high noon wedding yesterday.

MRS. BRUGUIERE IS AGAIN FREE

Rumor That She Will Try to Have Former Decree Set Aside

SAN FRANCISCO, Nov. 29.—Mrs. Mary Andrews Bruguiere-Denning, whose intention to come to San Francisco to have set aside the three-year-old divorce decree obtained by her former husband, Dr. Edgar Bruguiere, was recently made public, has caused no little surprise among her local friends by announcing her present residence in Paris with that same former husband's mother and her separation from her latest husband, the New York bond broker for the Goulds.

Mrs. Denning's latest move, which is said to be the outcome of the divorce tangle, explains her failure to come to San Francisco and removes, it is said, the possibility of her pursuing her intention to have the decree set aside. Dr. Bruguiere's decision to come to San Francisco and remove, it is said, the possibility of her pursuing her intention to have the decree set aside.

The Bruguiere divorce was a complicated case wherein it was declared that a divorce obtained by the wife, Mrs. Bruguiere, was null and void. The Bruguiere divorce was a complicated case wherein it was declared that a divorce obtained by the wife, Mrs. Bruguiere, was null and void.

The rectory of St. Mary's cathedral in San Francisco was the scene of a pretty wedding yesterday at high noon when John B. Gum, well known newspaper artist and Miss Florence Sherburne, the beautiful younger daughter of John Sherburne, assistant auditor of the western division of the Southern Pacific, were united in marriage by the Rev. Father Burn.

Only the members of the immediate family and a few near friends of the young couple were present at the ceremony, which was marked by an extreme simplicity. The bride was attended by an elder sister, Miss Anita Sherburne, and Hugh M. Shields, the widely known cartoonist who is a warm personal friend of the groom, performed the offices of best man.

Following the services a wedding breakfast was served in one of the downtown cafes, and it was not until after 3 o'clock in the afternoon that the happy couple started for Sacramento where their brief honeymoon is to be spent.

Mrs. Gum is an unusually pretty girl of the brunette type, tall and slender, and possessed of a charming personality which has made her a general favorite in the younger social set across the bay. Gum who is an artist and photographer of marked ability has been for the past six years in charge of the routing of the syndicate.

Refusing longer to accept only such attractions as Klaw & Erlanger, better known as the theatrical syndicate, may send several of the managers of interior California theaters have suddenly become a factor in the theatrical world by declaring for the "open door" and booking the shows of the Messrs. Shubert, heads of the independent managers.

Arthur Lott, a former San Francisco newspaper man, who is representing "The Gay Musician," due here next week under the Shubert management, has succeeded in booking California cities which have heretofore been closed to the Shubert shows through alliance with the syndicate.

First of the secessionists from the syndicate ranks was the Garrick Theater of San Diego, Collier, who has announced that any show of merit will be played at his house, regardless of its managerial affiliations. Other theaters to join the "open door" ranks are the Potter at Santa Barbara and the Shubert at Eureka.

It is understood that all the managers who have defied the syndicate attractions, the Shubert shows have heretofore been compelled to jump from San Francisco to Los Angeles. The new arrangement makes the problem of transportation an easy one.

GOVERNOR ASKS ARTIST'S PARDON

Hughes Would Obtain Release of Alleged Libeller of Mexican Editor

NEW YORK, Nov. 29.—A request of Governor Hughes for the pardon of Carlo De Forno, the caricaturist who has been sentenced to one year's imprisonment on the charge of libelling Rafael Reis Espinola, the Mexican editor and politician in De Forno's book on Mexico, is contained in a resolution adopted by a mass meeting held here by American sympathizers of the artist.

The resolution is denouncing and the legislature is urged to repeal that part of the libel laws under which De Forno was convicted.

"Mother," Jones, who has figured as an actor in many big strikes and other labor troubles; Gavriel Wilshire, Joshua Wanhope, once Socialist candidate for governor of New York; Herbert Barrow, a Mexican politician, and others vigorously protested against De Forno's sentence and a collection was taken up to help him out of the courts if that is found necessary.

WASHINGTON, Nov. 29.—The civil service commission has summoned Public Printer Tamm to appear before it on December 15 to show cause why he placed a charge of insubordination against John W. Rodgers, an employee of the government printing office, who, although tried by his former chief, could not be proved, took leave with pay which was due him, he alleges, and absented himself from his work for three days in November last to go home and visit.

On his return to work he was notified he was discharged and that a charge of insubordination had been filed against him with the civil service commission as reason for his discharge.

Later, on an appeal to Representative Blinnham of whom he was a constituent, Rodgers was reinstated, but the charge of insubordination was not withdrawn. Mr. Blinnham maintained it is said, that Rodgers had a legal right to absent himself.

The regular monthly meeting of the Oakland Federation of Churches will be held this evening in the parlors of the First M. E. Church, corner of Fourteenth and Clay streets.

Dr. H. H. Bell, president of the San Francisco Federation of Churches, will address the meeting. Dr. Bell will talk on the line of work taken up by the San Francisco Federation of Churches. The public is invited.

GUARD WATCHES HARRIMAN'S BODY

Watchman Keeps Nightly Vigil Beside the Tomb of Dead Magnate

NEW YORK, Nov. 29.—"I reckon Mr. Harriman's body is pretty safe with me around nights."

The speaker was lean of jaw and firm of mouth and his eyes roved over the expanses of barren mountain and valley. They were the eyes of a hunter or sentinel.

This man, James O'Connell, guards the body of Edward H. Harriman. He maintains constant vigil against possible ghouls. Four times a night he steals down to the rough slab that marks the grave of the great railroad financier. His eyes search the ribbon like mountain road that winds past the church yard, and wander over the shadows of the swaying trees down the hillside. He throws the light of his lantern over the slab and the rocks surrounding and goes away as silent as he had come.

"Yes," he said, "it's pretty lonely some there nights, especially since it's been snowing. Thanksgiving night the snow was eight inches deep on the grave and I felt queer there in the woods. No, nothing has happened and I don't expect anything will. But if anything does I will be ready." He tapped his pocket the line of exciting episodes in the suggestion of braggadocio.

Mr. Harriman's grave is not the only one to be guarded. For night and day since the death of Henry H. Rogers, a tale of legends armed with revolvers, have been patrolling near the simple tomb in the Riverside cemetery, Fairhaven, Mass.

THEATERS BUCK THE SYNDICATE

California Play Houses Issue Defi to Trust By New Booking

Refusing longer to accept only such attractions as Klaw & Erlanger, better known as the theatrical syndicate, may send several of the managers of interior California theaters have suddenly become a factor in the theatrical world by declaring for the "open door" and booking the shows of the Messrs. Shubert, heads of the independent managers.

Arthur Lott, a former San Francisco newspaper man, who is representing "The Gay Musician," due here next week under the Shubert management, has succeeded in booking California cities which have heretofore been closed to the Shubert shows through alliance with the syndicate.

Other theaters to join the "open door" ranks are the Potter at Santa Barbara and the Shubert at Eureka.

It is understood that all the managers who have defied the syndicate attractions, the Shubert shows have heretofore been compelled to jump from San Francisco to Los Angeles. The new arrangement makes the problem of transportation an easy one.

WILL ENCOURAGE FANCY BREEDING

Wealthy Chicago Men Plan Club to Promote Interest in Fine Live Stock

CHICAGO, Nov. 29.—Arthur Meeker and a number of other prominent Chicago men, inspired with an idea born of the international stock show, which opened Saturday at the Union Stockyards, have started a movement for the organization here of what will be called the "Farmers' Club of Chicago." Within a week, it was said yesterday, the "farmers" will get together and effect a permanent organization.

The club is to be formed along the lines of the New York Farmers' Club, composed of the Vanderbilts and a number of other wealthy men. The idea is to encourage the breeding of fancy grades of cattle on the fine country places that surround Chicago.

With the best stock show in the world being held each year in this city, the promoters of the new club feel that the opportunity to form an organization that will have a stimulating effect on stock breeding in this State is knocking at their doors.

VICTIM OF RUNAWAY SUCCUMBS TO INJURIES

SAN FRANCISCO, Nov. 29.—James Callahan, who was injured in a street car accident in Ocean View two weeks ago, died at St. Francis Hospital yesterday as a result of injuries he received. Callahan, his wife and niece were driving in a buggy. The horse took fright at a car and the wife and niece went under the car wheels and were killed, while Callahan was injured.

More Quaker Scotch Oats and less greasy foods. Better health, better complexion, greater strength.

THAT MERRY PAIR

HARRY AND KATE JACKSON ARE PRESENTING VAUDEVILLE'S MOST SPECTACULAR NOVELTY THIS WEEK AT THE BELL THEATER.

"Cupid's Voyage" is a Sparkling Comedy--A Grand Sooth Finish

Harry and Kate Jackson, with the old sailor, Jack Salt, with a scent for rum as acute as the nose of a hound on the trail of a wild boar, make up one of the cleverest little farce comedies that has yet been upon the Bell stage. Its title, "Cupid's Voyage," having in its makeup everything in the line of exciting episodes in the sinking of an ocean liner in mid-ocean.

Laura Radway is a dashing widow who, to escape the proposals of Col. U. S. Cackle, a most persistent lover, takes passage on a sailing ship only to find Cackle on the trail. A shipwreck scene is introduced, with Cackle in the lifeboat and the widow hanging on to the stern. "Will you marry me?" asks Cackle, and the widow faintly consents and is hauled to safety. Kate Jackson was simply splendid as the widow. She has a vein of humor which enables her to make the most of her role. The stage work is excellent and the sinking of the Mysic with the Princess Victoria steaming to the rescue of the principals is cleverly carried out.

THIS STAGE COUPLE DISCOUNT POPULAR THEORY. It is true, and perhaps there is some foundation for the popular belief that stage marriages are not always as happy as they should be, and a majority end in the divorce courts. Whether or not facts bear out this contention has nothing to do with this story, its only purpose being to show that stage folks can and do live happily together for years and reach a sensible age with as much as a dark-colored cloud disturbing their domestic tranquillity. They are HARRY and KATE JACKSON, appearing in a happy comedy and good production called "Cupid's Voyage," a title that might be applied to their own domestic life with the word "Sunshine" added. Married for nearly 16 years, Mr. and Mrs. Jackson have followed professional careers, playing almost without interruption together. For ten years they have been in vaudeville, and folks who know understand that a half score of years on the variety stage is not conducive to sweet temper. However, both Mr. and Mrs. Jackson are as even-tempered people as one could find in any walk of life, and stage hands, the most head-strong and stubborn of all, without exception, swear by this couple.

HARRY JACKSON IS MASTER IN STAGECRAFT. Harry Jackson has mastered the art of stagecraft as few other theatrical producers have. He possesses an intimate knowledge of scenic building, of light effects, as the climax in his present offering demonstrates. His vaudeville his shipwreck scene is an innovation, and there are few of the big dramatic "thrillers" that boast of anything more pretentious. Mr. Jackson's early stage training stands him in good stead, his father having been an actor and producer before him, a partner in the early days of Joseph Jefferson, while the son was associated later with the famous creator of "Rip Van Winkle" and other famous stars.

Everyone should visit the Bell this week. A better bill has never before been presented.

PRISONER IS BURNED TO DEATH IN CELL

NEW YORK, Nov. 29.—The authorities of Croton Falls are trying to establish the identity of a man who was burned to death while locked in an iron cage inside of a wooden building used as a place of detention. The unfortunate man had been arrested for intoxication and a deputy constable some hours afterwards found his body with the clothing burned and which he was lying. The position of the body indicated that he made frantically useless attempts to open the door of the cage.

FIRE CREMATES TWO BLUE RIBBON HORSES

KANSAS CITY Mo., Nov. 29.—A hundred and forty horses were cremated last night when the Blue Front Hotel caught fire. Two of the animals were high-class driving horses that had taken blue ribbons at horse shows here, in Chicago and St. Louis. They were Lord Gallant, for which \$2500 had been refused, and Bicarbonate, worth \$1200. The total loss was \$40,000.
